SAINT BONIFACE,
MANITOBA, CANADA.

A. G. MORICE, O.M.I.

¹ Just to show Dr. Sapir that, especially in material such as his and mine, an author is not always responsible for the printed mistakes, I will point out the fact that his *kw* does not correspond to my *q*, as he is made to say in note 16 of his first essay. This, at least, is a real *corrigendum*—but, I am sure, imputable to the printer alone.
