HAMILTON WATER WORKS.

William Haskins, Chief engineer.
office City Buildings.

The Hamilton Water Works were incorporated April 20th, 1836, by act of parliament, and are erected about 250 yards from Lake Ontario. These works are superior to any other in the Dominion, excepting those of Montreal. Their total cost was \$800,000; and there are now (1876) upwards of fifty miles of pipe laid in the city. The machinery is complete and perfect. The power consists of two double cylinder engines of one hundred horse power each, and the supply amounts to about 800,000 gallons a day of 11 hours. The reservoir three and a half miles from the works, is 185 feet above the level of the lake. It is 25 feet deep and will contain nine millions imperial gallons. The water from Lake Ontario is filtered through 31 feet of sand. The power required to force the water into the reservoir is equal to 5½ tons to the

square foot on the main pipe which has an inside diameter of 18 inches and is only one inch thick

HAMILTON POST OFFICE.

H. N. Case, postmaster; Henry Colbeck, ass't postmaster; Alred Crisp, chief forwarding clerk; N. A. Eger, registration and foreign mail clerk; J. B. Eger, accountant and foreign mail clerk; Geo. H.
