Investigating Flax Culture

Mr. A. L. McCredie, specialist, is in Waterloo, making an enquiry into the process of flax culture there, with a view to finding out how the Ontario flax fibre may be improved, should it be found desirable to cultivate it for fine manufacturing purposes.

The Western Fair

Sept. 9th to 17th, 1904. Sept. 9th to 17th, 1904.

The members of the farming community who attend the Western this year—and all progressive tillers of the soil find it to their advantage to set apart one or two days for a visit to Canada's Greatest Agricultural Exhibition—will be particularly interested in the changes wrought in some of the departments.

departments.

For instance, there will no longer be a cramped up dairy hall, with insufficient room for the exhibits of cheese and butter, and machinery, as well as the "Butter-making Contests" which are of departments.

such vital importance to every farmer's

wife and daughter.

In place of the old hall a new dairy building, to cost ten thousand dollars, is being erected, and it will be found what the exhibition has needed for so many years. In the preparation of the plans the greatest care has been exercised to include everything, even to the smallest detail, to make the structure of the best possible class for dairy pur-poses. What will attract great atten-tion will be the series of butter-making contests, for which good prizes are to be

given.

Another great change will be in the Agricultural and Horticultural Hall. A portion of this building was heretofore used for dairy purposes, but the erection of the new dairy building has resulted in the space being given over to agricultural and horticultural purposes, thus avoiding the crowding found necessary in the nast. in the past.

Military Horses at Local Fairs

Military Robers at Local Fails
Supt. Cowan has been informed by
the Militia Department that four
troopers and a sergeant will be permitted to attend a circuit of fall fairs
in Western Ontario, chiefly in Lambton county. The men will be equipped with horses of the type farmers
should raise for military purposes. should raise for military purposes, and expert judges will give addresses on the subject. Incidentally the sol-diers will give exhibitions of work in riding, sword using, etc.

American Breeders' Association

American Breeders' Association
The American Breeders' Association
organized at St. Louis last spring, is
progressing favorably. Everyone interested in plant and animal breeding
is being urged to become a member.
The Secretary, Prof. W. K. Hays, St.
Anthony Park, Minn., to whom all
remittances are made, reports daily
increases in membership. The fee is
only \$p\$ per annum, and is within
reach of all.
