

Now We Must Turn Our Efforts Towards Improving Our Roads and Highways

"Imperial Asphalts are immediately available in any quantity."

"Our own fleet of tank steamers insures a steady supply of the finest Mexican Asphalt crudes from which Imperial Asphalts and Imperial Liquid Asphalts are made."

"There are three Imperial Asphalts for road purposes, Imperial Paving Asphalt for preparing Hot-Mix Asphalt (Sheet Asphalt, Bitulithic, Warrenite, or Asphaltic Concrete), Imperial Asphalt Binders for Penetration Asphalt Macadam and Imperial Liquid Asphalts for dust prevention and for increasing the traffic-carrying capacity of earth, gravel and macadam roads."

"Imperial Asphalts can be quickly delivered to any part of the Dominion. They come in tank cars or packages, whichever is best suited to your requirements."

"During the war our whole energies were devoted to peace with victory. Labor and materials alike were diverted to essential war work."

"Now that victory has been achieved, our efforts are turned to urgent matters at home. Road Construction will be resumed. Road Engineers are even now planning the repair and renewal work neglected during the last four years. Municipalities will recognize in road and highway construction a practical solution to the problem of providing profitable employment for returned soldiers and those released from war-time industries."

"Imperial Oil Limited is ready to meet every call. Our facilities for production were never better. Our big, modern refinery at Montreal East, which we have recently enlarged, is engaged in refining all kinds of Imperial Asphalts in large quantities."

"Besides being Canadian-made and easily obtainable, Im-

perial Asphalts are each without a peer for the type of road work for which it is made. A better paving material than Hot-Mix Asphalt (Sheet Asphalt, Bitulithic, Warrenite or Asphaltic Concrete) made from Imperial Asphalt, cannot be obtained. Hot-Mix Asphalt pavements may be laid by home labor. Their wearing qualities have earned for them the phrase, '*Permanence with Economy*,' which is often applied to these pavements."

"Imperial Liquid Asphalt is not a make-shift road oil, but actually a liquid asphalt scientifically refined from pure asphaltum crude and carefully prepared for the work it is to do. It seals earth, gravel and macadam roads against the elements; stops the breaking action of fast-moving vehicles; makes the elastic 'traffic mat' to receive the wear of steel tires and absorb the shock of heavy loads. Imperial Liquid Asphalt has no objectionable odor and road surfaces on which it is used do not remain messy and sticky."

"Our Engineers and Road Experts are glad to advise or assist in all matters of road construction and paving. Their services are free."
