GOSSIP.

The illustration of the Shorthorn bull, Royal Bruce (imp.) 55038, which appears in this issue, is the property of Mr. R. J. Doyle, of Owen Sound, Ont. He was bred by Robert Bruce, of Heatherwick, Aberdeenshire, Scotland; sired by the Wimple bull, Winning Hope; dam Sunshine, a Bruce Mayflower, by the Buckshank Lovely bull, Sittytton. Yet he is a show bull from the ground up, being a rarely evenly-built bull of the low-down, heavy-fleshed, mellow-handling sort, and as a sire, is fast making a name for himself in the splendid thick, even quality of his get. The illustration does not do him credit, as he has been finishing at pasture all summer, and is somewhat rucked up.

QUESTIONS AND ANSWERS. Veterinary.

BRONCHOCELE.

Horse has a firm swelling about the size of a man's fist in neck, directly behind the jaw. It is not sore, is movable; and does not cause inconvenience.

Ans.—This is an enlarged thyroid gland, and is called bronchocele, or goitre. It is supposed to be caused by animals drinking water largely impregnated with lime. Some horses appear particularly predisposed to the condition. The glands can generally be reduced to their normal size by the daily application of an ointment made of 2 drams each of iodine and iodide of potassium, mixed with 2 ounces vaseline. If this fails to reduce it, and it grows so large that it causes distress, or inconvenience, an operation by a veterinarian will be necessary. V.

MUD FEVER—CRIBBER.

1. Have had mud fever in my stable for a year. First one and then another is affected.

2. Two-year-old is a cribber.

Ans.—1. Mud fever is not a disease that exists in stables. Of course, poor ventilation, dampness, etc., predisposes to it. Keep stable clean, dry and well ventilated, and it would be good practice to give a good coat of hot lime wash, with five per cent. carbolic acid. Give the patient a purgative of eight drams aloes and 2 drams ginger. Follow up with 1 1/2 ounces Fowler's solution of arsenic, twice daily every alternate week for six weeks. To the eruptions, apply, three times daily, a lotion made of 2 ounces each sulphate of zinc and acetate of lead, and 1/2 ounce carbolic acid to a quart of water. Do not wash the legs.

2. A tendency to cribbing may be checked by feeding the colt from the floor, removing the manger from his stall. A strap buckled tolerably tight around the neck, close to the head, acts as a preventive of the habit. V.

Miscellaneous.

BINDWEED.

I have a couple of patches of the enclosed weed, which I must have gotten with clover seed. Kindly tell the name, and how to get rid of it. T. J.

Ans.—This is the small bindweed, sometimes called morning-glory bindweed (Convolvulus arvensis). Its brown seeds are between an eighth and a sixth of an inch in length, and hence are too large to escape notice as an impurity in clover seed. When it once gets introduced to a field, then cultivation, particularly in damp weather, only spreads it, for every detached bit of its perennial rootstock is likely to grow. If the patches are small, cover them over with coarse manure, and keep it on long enough to effectually smother the weed, or cultivate the patches in dry weather, and with repeated rakings try to get the roots out, and burn them. J. D.

J. J. Wilson, Milton, Ont., who advertises Berkshires in this paper, writes: "I have an extra choice lot of young stock from two to eight months to offer, bred from imported and Canadian-bred dams and imported sires; some nice young sows bred and ready to breed. Sales have been good, and all through my advertisement in 'The Farmer's Advocate,' which I consider an up-to-date advertising medium. I am, this week, shipping an extra choice pair of young sows in farrow. They go to Dean Lake, Algoma District, and I am sure will please their new owner. My customers are all well pleased with the stock I send out, as the following letter from a Frontenac County purchaser will show: 'The sow I purchased from you arrived early on Saturday, and I must say that I am delighted with her. I saw nothing at the Toronto Exhibition last fall that would surpass her, where the breed was largely represented. I brought her over on the afternoon ferry, where she was admired by at least fifty farmers, which should be a good advertisement for your stock. I will want a boar in the fall, or, perhaps, if you had a good boar pig I would take one now. I have just received the registered pedigree of sow.'"

SUFFERED FROM HEART and NERVE TROUBLES FOR the LAST TEN YEARS.

If there be nerve derangement of any kind, it is bound to produce all the various phenomena of heart derangement. In

MILBURN'S HEART AND NERVE PILLS

is combined treatment that will cure all forms of nervous disorders, as well as act upon the heart itself.

Mrs. John Riley, Douro, Ont., writes: "I have been a great sufferer from heart and nerve troubles for the past ten years. After trying many remedies, and doctoring for two years without the least benefit, I decided to give Milburn's Heart and Nerve Pills a trial. I am thankful to say that, after using nine boxes I am entirely cured and would recommend them to all sufferers."

Price 50 cents per box or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
