The present year had the coolest July since 1895 when the mean temperature was a fraction lower. The coolest July on record was that of 1891 and the warmest that of 1916, when the mean temperature averaged ten degrees higher than the present month.

The influx of immigrants to Canada is about 18,000 per month. Of this the United States last month contributed 6,000 and the United Kingdom 12,000 of which about 8,000 are English, 3,000 Scotch and 1,000 Irish and Welsh. The new immigration restrictions required for careful selection, are rejecting about 1800 a month, while about thirty or forty are deported for criminality or other disqualifying conditions.

A returned soldier, Henry S. Scott, shot his wife at his home in West Nyack N. Y. Scott himself was found dead with a bullet hole in his mouth in a patch of woods back of his home. His wife is in the Nyack hospital in a critical condition. Scott returned from taking his wife's parents to the railway station. He called to his wife, who was looking after their nine-months-old twins upstairs, to come down to him and kiss him goodbye. He was going to New York unexpectedly. While kissing her he shot her in the back with a revolver. Scott then carried her, half conscious, to her bedroom put her to bed and bandaged her wound. After four hours he called a doctor on the telephone. The doctor found Mrs. Scott unconscious in her bedroom and restored her enough to learn what had happened.

Two little girls sat on the river bank near Medford, Minnesota, the other day playing "store." One was the shopkeeper, the other was the shopper. W. A. Bailey, postmaster of Owatonna, paused as he passed them. As the "shopper" bought a mud pie she gave her little shopkeeper a glittering piece of water-soaked paper. Bailey blinked and looked again. It was a \$1000 bond. The rest of the funds Bailey counted excitedly. There was \$100,000 worth. Inquiry revealed that they were among the loot from the Great Northern State Bank at St. Paul, held up and robbed by five armed men. A pillow case had floated down the straight river near Medford, where the little girls were wading, they explained, and they towed it to shore. Inside clogged with wet feathers, the bonds were found, a fat bundle of them. They were pretty, hence the game of "store."

A Real Man

A real man never talks about what the world owes him, the happiness he deserves, the chances he ought by right to have, and all that. All he claims is the right to live and play the man.

A real man is just as honest alone in the dark in his own room as he is in public.

A real man does not want pulls, tips and favors. He wants work and honest wages.

A real man is loyal to his friend and guards his reputation as his own.

A real man is dependable. His simple word is as good as his Bible oath.

A real man honors a woman. He cannot hurt a woman, physically or morally. He sticks to his wife.

For Sale—Any Bidders

One Ford car with piston ring, two rear wheels and one front spring. Has no fenders, seat or plank, burns lots of gas and is hard to crank.

Carburator husted half-way through, engine missing but hits on two.

Three years old, four next spring, has shock absorbers and everything. Radiator busted, it sure does leak, differential dry, you can hear it squeak. Ten spokes missing, front all bent, tires blown off ain't worth a cent.

Got lots of speed, will run like the deuce, burns either gas or tobacco juice. Will harm no one night or day, for you can hear it coming when miles away.

One tire off, runs on rim, its a darn good Ford for the shape it's in.

A Get Out

Do savings mean anything to you? Are you really trying to save? Your presence at this sale will prove it. The only way to prove it is read the circular carefully, anticipate your wants and attend this "Sale of Sales."

Don't let anything keep you away

Everything on Sale

Nothing Reserved

KNECHTEL & KNECHTEL

Much Sickness Due to Lack of Work

The healthy body produces more energy than it needs to keep the Heart, Lungs and Bowels working. This surplus energy must be spent in mental or physical work. On the other hand, people who work too hard use their reserve strength and wear out the system.

People who are inclined to Nervousness, Constipation, or have any of the Troubles of the Heart, Liver, Nerves, Kidneys, Stomach or Bowels can greatly improve the condition of their health if they so desire.

If you work too hard, take more rest, if you work too little, take more exercise, you will need medicine to correct the troubles caused by your indiscretions and to assist nature to restore health. Then take

Hacking's Heart and Nerve Remedy and if you require a laxative take

Hacking's Kidney and Liver Pills

These two preparations will work wonders and we will guarantee beneficial results because we know they will do so.

Mr. Wilson E. Eagleton, of Bay field, writes as follows: "I have much pleasure in addressing you in regards to Hacking's wonderful Heart and Nerve Remedy. I have used quite a few boxes and I must say they have done me a world of good. Please send me 5 more boxes of Hacking's Heart and Nerve Remedy and 2 boxes of Hacking's Kidney and Liver Pills."

If you too want to regain your lost health, then go to your nearest Drug Store and ask for Hacking's.

J. P. PHELAN

DRUGGIST

There is now a regular air mail service from London to Holland, from London to Paris, and a service from London to Brussels is expected at a very early date. The rate on letters to Holland is 3d. per ounce in addition to the regular postage rate of 2d. This latter rate is felt to be excessive, and is likely to be considerably reduced in the near future. These air mail services are being extensively used, and are growing slowly in popularity, even after the novelty of them has somewhat worn off. We do not hear much these days about the opening up of an aerial mail service between some of our larger Canadian cities. We ought not surely, to be too far behind the procession.

Thomas Miller, a Warton barber, left a customer in the barber chair partly shaved one day last week. It seems he got word that his home was being searched for the illicit manufacture of booze. The Canadian Echo says the officers found a brew but no still. Miller has not returned to shave the customer. A warrant has been issued for his arrest.

Poland faces a winter of starvation on account of the destruction of harvests by the Bolshevik advance. Italy's food commissioners announces a big shortage in Italy's wheat supply, with no available way of meeting it in sight. And this is nearly two years after Germany surrendered. It is the result of the blind folly of failing to end the war in the East as well as in the West and of trying to substitute a new league of nations for the old, effective league which had won the war.

The Gun Showed

While at the picnic at Silver Lake last week a young man was noticed near the stand where the speakers were with the butt end of a revolver protruding from his right hip pocket. It was very noticeable and the young man appeared intelligent enough to know better than to carry a gun in such an open manner.

Artie Wesley, the well known editor of Bruce Herald Times, with a nose for new, interrogated the gun carrier as to why he should carry a dangerous weapon in a mixed crowd such as was at the picnic. "Do you know we are living in a civilized age and this thing will not be tolerated," said the Bruce scribe. The appearance of a rural officer of the law, who asked the young man why he carried the gun so conspicuously, brought forth the answer that the carrier was an officer of the law, and that his home was in London. He said he had his papers of authority in his car. It is understood that the young man was not an officer, but that he carried the gun as a matter of protection while touring in the rural districts.

Mr. Wesley says at a mixed gathering such as the picnic was where they were misquoting scripture and condemning one another a man had no right to carry a gun. Aside from that it is an infraction of the law and no one with common sense these days carries a gun.—Kincardine Reporter.

There's nothing wrong with the state of Denmark on the sugar question. It is selling there for 10c. a pound with a 22 per cent profit to the shareholders in the factories and a paying profit to the growers of the sugar beets. What's wrong with Canada?—Owen Sound Sun-Times.

They'll Be Different

The contract for the motor vehicle license markers for 1921 has been let by the Hon. F. C. Biggs, Minister of Public Works and Highways. The numbers will be hyphenated in groups of two—for instance (19-72-73). The Canadian-born Secretary of State for New York State, Hon. Francis M. Hugo, originated this hyphenated scheme. It was found after exhaustive test, that numbers so broken into groups of two were much more readily and accurately seen and remembered.

Where They Draw The Line

The hotel man was in a musing mood. "People who stay at hotels are queer he said. They are just as honest and honourable as any other people. I suppose, but they take nothing of value from the table, soap and towels from the bedrooms. Since Prohibition came in they are becoming victims themselves of thieves. We find it impossible to protect our guests from having their liquor stolen from them by our help. But they don't complain. We know they are cross about something but they won't tell us what it is."

"There is this to be said, however, about guests and employes alike. They have a fine regard, amounting almost to veneration, for things sacred. Now I never knew in all my hotel experience one solitary instance of a guest or employe stealing a Gideon bible."
