## ED HARRIS ARRAIGNED

### On Charge of Aiding in Dominion Hold-up

### In Which Offense Mat Tomerlin Has Confessed to Being Principal.

Edwin Harris, who has been held as a witness in the Dominion saloon hold-up case for the past two months and who obtained his release yesterday only to be re-arrested, was brought before Magistrate Macaulay this morning charged with having aided and abetted Tomerlin and Tomerlin in the robbery. The Crown prosecutor stated that two necessary witnesses were absent from town and asked that an adjournment for one week be granted.

Attorney Smith, who appeared for the defense, made an objection to the adjournment of the case and asked that the trial be proceeded with at once inasmuch as Harris had been held for two months.

The magistrate stated that Harris had been held from week to week during the two months by his own consent and that yesterday he had made his first objection. Mr. Smith then withdrew his objection and the case was enlarged for one week from today.

Julius Gocher considered that he had been very harshly treated by Chief Wilkenhurst when the latter took him in rather a rough way and called him (according to Julius' story) several unpleasant names, and as Julius sought redress for his wrong in the police court this morning, Julius' story was that he had had a business transaction with Wilkenhurst and the latter had been standing him off for payment. He went into Wilkenhurst's restaurant yesterday and asked for payment and had received, instead of the money, several bad epithets and been told to go his own way.

E. A. Wright was called as a witness but according to his testimony Julius had been the one who had called all the names and had hammered the table with his fist and acted altogether in a manner such as would lead the witness if he had been the other party to wallop him good. The magistrate gave Wright a good lecture on his stinging threats of what he would do and also told the other parties that it was not proper to call each other bad names and that it would be better if they refrained from it in the future, and with that dismissed the case.

## CUTTER TURNED OVER

### James Hall the Eldorado Magnet Meets an Accident.

What might have been a serious accident occurred at the corner of First Avenue and King street yesterday afternoon. James Hall, the Eldorado Magnet, accompanied by two ladies, was driving down the avenue at a rapid pace and failed to slacken the speed of his horse when the corner was reached. The horse succeeded in making the turn without difficulty, but the cutter was not so fortunate. It swung around the corner until the front wheel met an obstruction and the next moment the occupants were rolling over and over in the snow.

bystanders caught the horse and righted the cutter and the ladies were picked up from the snow bank into which they had fallen.

It was found that no serious damage had been sustained and the party was soon en route down King street, the way disturbed by the accident.

### How to Write to the Pope.

When you write to the Pope your letter must be in Latin. The style must not be classical, but the language is obligatory. Some sort of Latin must be employed. The letter must be addressed to "His Holiness Pope Leo XIII, the happily reigning pontiff." It must begin with "Beatus Pater," "Most Blessed Father," and must end with some expression of regard.

When it reaches the Vatican it has a chance of arriving at its destination unless some special precautions have been taken for the daily mail numbers 20,000 documents. An excellent way of getting a letter into the Pope's hands is to make use of two envelopes, the outer one directed as above prescribed, and the inner one addressed to "His Holiness the Pope, the Head of the Universal Holy Roman Inquisition." A minor official who opened an envelope thus addressed would incur the penalty of excommunication. Such communications are handed to the Pope, who opens them and passes them on unread to Cardinal Rampolla.

York, the first week in April. Next Sunday evening Mr. Cummings' friends will tender him a farewell testimonial benefit at the Auditorium at which time the beneficiary will be seen in a number of character sketches new to Dawson audiences. The program being arranged will be one of the best yet seen in the city.

### The Pope's Health.

New York, Jan. 27.—Signor Lapponi, the Pope's physician, in view of the constant reports of the Pope's ill-health, said to a Rome correspondent of The Journal:

The Pope is in excellent health, both mentally and physically, and is looking forward joyfully to the fetes which celebrate his twenty-five years pontificate. These fetes, which begin the last of March, continue one year in order that pilgrims from all parts of the world may attend.

As an instance of the Pope's clear memory, at a recent reception for the Roman aristocracy the Pope observed Marquis Patini and said: "I remember you well, Marquis. We met the first time at Ostend station fifty years ago. You were with your father."

### Khedive's Ball

New York, Jan. 27.—The social season has just opened with the Khedivial state ball at the Abdin palaces, cables the Cairo correspondent of the Journal. It was a splendid function, attended by 2,000 guests. Many Americans were present. The Khedive opened the ball with Lady Cromer and conversed interestedly with the Americans. The chief guest was the Grand Duke Boris of Russia, while Prince Lichtenstein, Prince Oldenburg and the Earls of Dunraven and Sheffield were also in attendance.

### Ancient English Wisdom.

The following piece of quaintly worded, sententious wisdom, inscribed in black-letter painted in red, was discovered beneath modern plastering on an old half-timbered house at Tewkesbury:

"Three things pleseth Boeth God and man—Concord? Betwene brethren, Amitye between nayghbours; And a man and his wife that agreeeth well together.

"Fower things hurt much the life of man, Tears, Smoke, wynde, and the worst of all, to see his friends unluckye, and fose happye.

These fyve things are rare sene: A fayer yonge woman without a lover, A yonge man without myerth, An owld uesseror without money, Aney greate laywer without theffes, A fare hame without musick."

### The Pulpit vs. the Bar.

An eminent American lawyer now deceased was sadly given to intoxication. On one occasion he entered a church while a minister was holding forth on the future punishment of the wicked.

Fixing his eye upon the lawyer, who was reeling near the door, the preacher exclaimed: "There stands a sinner against whom I will bear witness in the day of judgment."

At this the lawyer folded his arms, planted himself as firmly as he could, and addressing the man in the pulpit, electrified the whole congregation after this fashion:

"Sir, I have been practising in the criminal courts for 20 years, and I have always found that the greatest rascal is the first to give state's evidence."—The Scotsman.

### Will Compel Retraction.

A vaudeville artist employed in one of the local theatres is in receipt of a letter from Clotilde Rogers dated at San Francisco in which the information is imparted that instead of being behind the bars doing time in Walla Walla, she is very much alive and very much at liberty. She says further that she intends returning to Dawson over the ice and immediately upon her arrival she will compel a retraction of the article published some weeks ago in a local contemporary, which said she was undergoing imprisonment, or there will be a libel suit begun that promises to be interesting.

### Commendable Work.

The N. A. T. & T. Co. had a force of men at work yesterday removing the packed snow and ice from the sidewalks on all sides of its property. This example should be followed by every property owner in town, as the time is not far distant when the surface of the snow will be melted by the sun and then freeze at night and be dangerously slippery. The caked snow should be removed from every sidewalk in Dawson before it begins to soften.

### Survey Being Protested.

Yesterday afternoon in the gold commissioner's court was heard the case of Cudahy et al vs. Oker et al. The action is in the nature of a protest that is being made over the acceptance of a survey covering 28 and 29 above on Bonanza.

### His Last Week.

The present is Mr. Ralph Cummings' last week with the Bitner Company. He leaves for the outside early next week and will open with his own company in Rochester, New

York, the first week in April. Next Sunday evening Mr. Cummings' friends will tender him a farewell testimonial benefit at the Auditorium at which time the beneficiary will be seen in a number of character sketches new to Dawson audiences. The program being arranged will be one of the best yet seen in the city.

### No News of Condon

Victoria, Feb. 11.—H.M.S. Egeria has returned from a long cruising trip along the Pacific coast with no news of the overdue ship Condon.

### Sale of Lipton's Canvas.

New York, Jan. 27.—A job lot of sails and rigging belonging to Sir Thomas Lipton's yacht, Shamrock II, which was left from the fire at the yard of the John L. Rolyns Co. in Brooklyn a few weeks ago, has been sold for \$430. There was a large crowd of speculators on hand, but the whole lot was sold to one man. The sails were made of the finest canvas and linen and one of the sets is said to have cost \$8,000. It is believed that there are several thousand yards of the cloth not injured by the fire.

### Lots of Them Willing.

"They seem to be making a lot of fuss over this girl who travelled 2,500 miles to marry," she remarked. "Isn't it unusual?" he asked.

"It may be unusual, but there is nothing extraordinary about it," she answered. "Why, I know girls who would travel twice as far for the same purpose, if assured of success at the end of the journey."—Ex.

### Big Run at Billiards

New York, Jan. 27.—W. H. Sigourney, the champion amateur billiardist of the Pacific Coast, has just made a run of 121 in a 14-inch balk line game at the Knickerbocker Athletic Club, where he is practicing for the amateur Athletic Union tourney for the billiard championship of America, class A.

Charles S. Norris, another entry in the same tourney, and the champion of the Knickerbocker Athletic Club, contested the game with Sigourney and played very good billiards, his average being 9 32-37. Sigourney required thirty-eight innings to com-

plete his 400 points, and his average was 10 20-38.

INVEST BEFORE IT IS TOO LATE

Lone Star Stock Is the Best Investment Ever Offered to the Public.

We claim we have the mother lode. Can you deny these facts. The mines are situated at the head of the two richest creeks on earth—Eldorado and Bonanza. Gold is found on every claim on Bonanza creek, and up Victoria Gulch to the quartz mines. If it did not come from this ledge, where did it come from?

The gold found in the creek is the same as that found in the ledge.

The gold is found in slide matter on Seven pup. Where did it come from?

The best pay found in Gay Gulch is at the head of the gulch, below the quartz mines. There are eight gulches heading at the Lone Star mines. They all carry gold. Where did it come from?

Lone Star stock is the best investment ever offered to the public. Buy now. The books will soon be closed and you will be too late. Don't let the man who knows it all tell you that there is no quartz in this country. The fools who make that statement have no bank account, which is the proof of their wisdom.

Every placer camp in the world turned into a quartz camp. Cripple Creek was a placer camp. The men who knew it all were there. They made the same statement. A carpenter found the quartz after the wise men had left.

Have you ever visited the Lone Star mines? If not, you have no right to even think. Go up and satisfy yourself. Yours for business and a quartz camp. LEW CRADEN.
