THAT we are all creatures of circumstances is first shown by the fact that we were not consulted about being born, yet we are all here.

GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE

Makes a beautiful skin for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

END STOMACH TROUBLE. GASES OR DYSPEPSIA

"Pape's Diaphepsin" makes sick, sour, gassy stomachs surely feel fine in five minutes.

If what you just ate is souring on your stomach or lies like a lump of lead, or you belch gas, and eructate sour undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach-headache, you can get relief in five minutes by neutralizing acidity. Put an end to such stomach distress now by getting a large fifty-cent case of Pape's Diaphepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia, or any other stomach trouble caused by the action of acids.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your hair! Get a small bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is white evidence of a neglected scalp; of dandruff—that awful scourge. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.
Get a small bottle of Knowlton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it!

When the first baby comes it is a great sight to see papa toasting off cigars as though he were the tobacco trust. Everybody must smoke on the only baby in the universe. Oh, it is fine business!

When the next household treasure arrives a few of his intimate friends who know all about it get one "on the quiet" just to keep them still.

After that they buy their own cigars. Papa is too busy bringing home nursing bottles and the other necessities of life to notice their hints.

DOLLARS THAT ARE SAVED.

When Properly Invested They Help to Develop Our Country.

What work does the saved dollar do to help make this country a better place for the saver? At a meeting of the American Bankers' association an intelligent answer was made by a man who is well qualified to speak. He said:

"While a dollar saved by a workman helps to give to some workman a job, so does every other dollar of savings, whether it comes from wages, interest or profits.

"The economic effect of a dollar saved and invested is just the same, whether the owner is a wage earner, an employee or an heir of inherited wealth. Income, however it originates, that is saved and put to reproductive uses performs an inevitable service for society.

"Every form of savings finally seeks investment, and if you will follow the investment through to its ultimate reaction you will see it putting men to work; you will see it enlarging the agricultural, the industrial or the transportation equipment of the community; you will see it creating new demands for labor, raising the rate of wages and increasing the production of things which men desire.

"If savings are devoted to reproductive purposes, it makes no difference whether they are the savings of the workman or of the millionaire, they ultimately accomplish the same result—they increase the supply of things that the whole community wants."

F. A. Vandegriff said that. It is true. Your \$50 in the savings bank works at the same jobs to which the \$50,000 of the rich man is sent.

If the men who manage the work are honest and capable they use our saved dollars to make this country worth living in, worth working in, worth being proud of, worth fighting to preserve.—John M. Oakison

decision to select a few of his most successful prescriptions, and place them on the market for general sale.

This action met with some criticism from the medical profession, but Dr. Chase's motto was the greatest good to the greatest number, and one cannot estimate the suffering alleviated and the lives saved by this generous action on the part of the doctor.

The use of Dr. Chase's medicines has become so general that there are few, indeed, who do not know something of their sterling merits. So enormous have the sales become that imitations have been put on the market and substitutes are offered by unscrupulous persons who seek to steal the reputation of their originator.

But the doctor has protected you by having his portrait and signature printed on every box of his medicines. By taking care to see these on the box you buy you can be certain that you are getting the genuine.

Dr. A. W. Chase's medicines are for sale by all dealers, or sent on receipt of price by Edman, Bates & Co., Ltd., Toronto.
