

Winter Ushered In Monday Somewhat Unceremoniously.

AN OLD TIMER BRINGS WINTER

Violent Storm of Monday Did
Some Damage About The
Miramichi

TELEPHONES SUFFER

Communication Interrupted In All
Sections Enough Snow For
Sleighting

Winter was ushered in Monday by a violent storm which did some damage about the Miramichi. The wind was from the north and the rain fell in a steady shower. The snow fell in a steady shower. The snow fell in a steady shower.

The telephone service throughout the city was interrupted. The lines were downed by the weight of the snow. The lines were downed by the weight of the snow.

All the trains were delayed but not for any length of time. The river was several inches higher than normal. The river was several inches higher than normal.

AN ELECTION STORY.

There's a good election story being told at the expense of a prominent Liberal ward worker, one of the head men of a large city ward says the Chatterer in the St. John Telegraph. The party of the other part is an equally active worker on the Conservative side of the fence and who also is a man of importance in the conduct of the city's affairs. The heat of political battle led then into a controversy which ended in the bet of a hat being made on the outcome of the election in the city and county. The first named took McKeown as his man; the other wagered a head piece on the election of Dr. Stockton. The ballots decided that the Stockton man was to get the new hat. After the election they met and the customary banter passed. The winner had visions of a new silk tie but this view was rudely dispelled by the other's laughing statement that when he bet a hat he meant a straw one. But the Stockton man was equal to the occasion and after thinking over the matter he decided and with the spirit of a good joke upon him, went into a King Street hatter and ordered a \$15 Panama, with instructions to send the bill to the loser of the wager. So he came out on top after all and will sport a natty one next summer.

THE VACANT SEAT.

There is a vacancy in the representation of this county in the Legislature and the prospect is that there would be no opposition candidate in the field if the election were held now says the Chatham World. The Government has a big majority in the House and its opponents in the county are not inclined, we think, to spend time, money and energy in electing a man who might resign next year if anything with more pay attached to it were offered to him. The result is therefore, dear for a supporter of the Government supporters Mr. W. B. Snowball, whose excellent plan for work during the late campaign showed him to be the stuff of which successful candidates are made, is talked of as Mr. Loggie's successor at Fredericton, and Hon. J. P. Burdett's name is freely used in the same connection. Mr. T. W. Fleet is spoken of as an independent candidate, and would have a good fighting chance to win if he could be persuaded to accept nomination. If Mr. Watt could hold the Loggie organization together he might easily be elected as an opposition member. Mr. Robt. Murray is credited with a desire to sit among the assembled wisdom of the province. He has been asked to run and would be a strong candidate. Newcastle, having two members already, is not likely to have a man in the field.

HALL'S VEGETABLE SICILIAN Hair Renewer
A high-class preparation for the hair. Keeps the hair soft and glossy and prevents splitting at the ends. Cures dandruff and always restores color to gray hair.

MET HIS DEATH IN THE WOODS

James Gorman of Nelson Instantly
Killed at McLean's
Brook.

ONLY MEAGRE DETAILS

James Gorman, a 49-year-old son of Patrick Gorman, was instantly killed at McLean's Brook. Word of his death came over the telephone to Nelson on Sunday but no particulars were given. It is believed that the man was engaged in piling logs.

THIS MAN SAW NINETY MOOSE

Up In Gloucester County They
Wait Until They See A Head
Which Suits.

The Advocate's Bathurst correspondent writes of a great many of the strangers who were hunting in the vicinity of Bathurst and the Upper Nepisquit have returned to the States, well satisfied with their hunting trips, while the heads secured this year were perhaps a trifle, slightly smaller on the average than those got last fall, still some magnificent trophies were shipped to the taxidermists at different points to be dressed. Some of the hunters tell great tales of the number of moose seen, one gentleman informing one of our members of the Assembly that he actually counted ninety moose at different places before he shot an animal with a head to suit him. These hunters leave a great deal of money in the town and among their hunting trips, while the heads secured this year were perhaps a trifle, slightly smaller on the average than those got last fall, still some magnificent trophies were shipped to the taxidermists at different points to be dressed.

Moose are constantly seen quite close to the settlements, and Messrs. Fred G. Robertson and Herbert Hubert secured a splendid head the other day quite near Burnsville, passing another animal as they returned home. The prettiest head seen this year was shot by Mr. Richie Nichol, formerly of Bathurst, now living in Boston, who got it near his father's place in Dunlop while home on his holidays. It had a spread of about fifty five inches with nine points on one side and ten on the other and the curves and color of the horns were pronounced by judges to be perfect.

Northumberland Lodge No. 17 F. & A. M.

Whereas this Lodge has met with a severe loss, by the sudden death of our late Brother Pastmaster, Samuel Thomson, who at the time of his decease, was the oldest Mason on our roll, as a member of the lodge, he faithfully and regularly attended its meetings, and on all occasions exemplified, by his eminent ability and courteous manner, those traits of character, which distinguish the just and upright Mason.

Therefore Resolved, that this Lodge as a tribute to his memory, desires to express its deep appreciation, of his many unremitting efforts, which so successfully contributed towards the welfare of the Fraternity, and also its unfeigned sorrow, for the loss it has sustained, by the passing away of his useful life.

Further Resolved, that this Lodge deeply sympathizes with the Widow, and family of our deceased Brother, in their sad bereavement, trusting that He who hath ordered this mysterious dispensation, will bind up their stricken hearts, and extend to them, that comfort and consolation, which He alone can give.

Further Resolved, that a copy of the foregoing resolutions, be furnished to the widow of our deceased Brother, and a copy sent to the Union Advocate for publication.

WRITER DEPLORES LACK OF SPORTS

Declares Moral Tone of a Community
is Necessarily Low With-
out Them.

A PLEA FOR A RINK.

It Would Not Require Much Effort
To Establish Such An
Institution

To the Editor of the Advocate:

During the past winter, I have seen a considerable number of young and middle-aged men, who are well educated and well-to-do, who are spending their winter months in the city, who are well educated and well-to-do, who are spending their winter months in the city.

Newcastle is a city of a covered rink and I think it would be a great effort to have one established. The moral tone of a community is necessarily low without them. It would not require much effort to establish such an institution.

RIBLE IN BIGAMY CASE.

May Not Prove a Guide in Marriage-
Criminal Cases May Differ.

Precedents in the law are of little value, but there was a precedent in the Toronto Police Court, in a recent case, which was decided in favor of the defendant.

John Prentiss, a man of 35, was charged with bigamy, and the case was heard in the Toronto Police Court. The case was heard in the Toronto Police Court.
