RUM, BRANDY, AND HOLLANDS.—There was a very steady demand for Rum last week, but a considerable business was prevented from being done owing to the supply at Market being sufficient. There is a good export demand for Brandy, but little is doing. Hollands in demand for shipping.

TEA.—There are several export orders being executed, and black descriptions of Fish Oil continue to advance; the stocks of these kinds being small, but few of the orders have as yet passed. Palm Seed, Cod and Southern Oils are in brisk request by the home trade, and generally improving prices.—The demand for Cod Oil since Friday has been very moderate; there has been no sellers under 47s. @ cwt. Palm has advanced to 37s. Olive is in demand for shipping at £63 for Gallipoli.

TEA.—The public sales of 50,000 packages of Free Trade commenced this morning; there was a good attendance of the trade, including several dealers from the country. No discussion about duties or any other subject concerned. Bohea has been sold at 2½d. @ 11½d; Fokien 1s. 3d. @ 2s. 6d.; Congous, fine black leaf 2s. 3d. @ 2s. 6d.; Souchong kind 1s. 10½. @ 2s. common 3s.; 3d. @ 1s. 2d.; Twankay 1s. 6d. @ 1s. 6½d.; Hyson 3s. 2d. @ 3s. 6d.

FLOUR, MONEY, &c.—The prices of the English Funds have steadily advanced; where there has been no rise, the quotations are fully equal to those of last week, the transactions have again been very moderate. Canada has been at 29 for Money and accounts. Exchequer bills risen to 20 @ 22. Money is by no means scarce, and discounts on good bills easy to effect.

We have been favoured by a friend in town, with the following extract from his Liverpool correspondent's letter of 16th ult :—

"The present stock of Ashes has been diminished by 500 barrels, sent last month to London, and probably about 1000 Pots, and 200 Pearls. We expect a return of demand for Pot Ashes, which now arrives, that will completely take off the stock. It should be borne in mind with regard to Pot Ashes, that a demand for them, in order to make Pearls, (which were so short) raised prices in the first instance in this market, and in a good measure supported them. A good supply of Pearls will therefore affect that article in price, as well as Pearls themselves.

"The abundance of money, and general state of prosperity is manifestness, no reason for comparatively high prices; still a fair supply by first ships will certainly lower prices."
