Earl Montgomery and Joe Rock who have long been co-stars in Vitagraph Big "Y" Comedies are now to be starred separately. They signed new contracts the first of this week.

By the division both Montgomery and Rock attain an ambition to play alone that resulted from the increasing following they have gained with each year of the five they have played together in Vitagraph comedies. Vitagraph has been assured that the popularity of the pair would serve to attract an equally wide following with each as a separate star. Their productions will be in two reels. Prior to Montgomery and Rocks film partnership they were on the stage, chiefly in musical comedy. Mr. Montgomery was raised in Alaska, his father having been one of the first in the Klondike gold rush. Joe Rock, before going on the stage was a physical director well known in New York's leading athletic clubs. Montgomery and Rock have made more than fifty comedies together.

### Notice to Contractors

Pursuant to the requirements of the Canada Highways Act, sealed tenders marked "Tenders for work in the Township of Niagara" will be received by the undersigned until twelve o'clock noon on Wednesday, April 7th, 1920, for the earth-work and other necessary work on the Provincial Highway in the Township of Niagara. Plans, specifications, and forms of tender may be seen on and after Wednesday, March 17th 1920, at the office of the Resident Engineer, Beamsville, Ont., and at the office of the City Engineer, St. Catharines; and at the office of the undersigned. A marked cheque for \$500.00 payable to the Minister of Public Works and Highways of Ontario must accompany each tender. A Guaranty Company's bond for 10% of the amount of the tender will be required when the contract is signed. The lowest or any tender not necessarily accepted. W. A. McLEAN, Deputy-Minister of Highways, Department of Public Highways, Toronto, 12th March, 1920. Mar. 16th

### GREAT MUSICIANS SAY SO

You accept the advice of a first-class lawyer because he knows law. You can with equal safety buy a Heintzman & Co. piano endorsed by world-wide artists like Albani, Melba, Tetrazini, Friedheim, Cherniavsky Brothers and many others who know the instrument, have used it and in many cases own one. This is termed by the great artists the world's greatest piano. See them at 68 St. Paul street, St. Catharines, Ont.

### DRAINAGE IS IMPORTANT AFTER EFFECTS OF INFLUENZA OFTEN SERIOUS

**Some Benefits of a Well Devised Drainage Plan.**

**W**HEN a man is about to erect a building he ever so small, the first thing he does is to make a plan. That plan may be on paper or it may exist only in the mind of the builder, yet it is a plan. Without a plan to follow, a builder cannot do good work. The same is true of the drainage. The man who places a "string" or "line" of tile in a watercourse, which traverses his fields, should not do so without asking himself such questions as: "Am I putting this tile in the lowest part?" "Will it be able to get a satisfactory outlet? How many acres will this tile drain, and if it rains enough to drain it satisfactorily? Have I sufficient grade to drain? The holes in the rear fifty?" If he does not ask himself these questions he is like a builder without a plan. He is working in the dark; his work cannot be efficient. All these questions the drainage plan answers, and more.

No matter how small the means for immediate construction of drains, or how few the drains which one is about to install, he should not do so without having first laid out a plan of which these drains will be a part. On rolling land such a plan is not hard to decide upon, because the differences in elevation are very pronounced, and any one who is familiar with such land is able to intelligently plan a system of drains for them. But where the area is large and the topography irregular, or very flat, guesswork is out of the question. It is then that we must resort to the tape and the levelling instrument for reliable information. A drainage plan shows first of all the differences in height or elevation between all parts of the farm over which the survey is extended. This allows the owner of the land to plan his own system of drainage. The possession of the levels for all parts of the farm lays bare the most advantageous outlets for the drains, from a study of the levels and contours of a plan it is possible to calculate the acreage which each main tile must drain. This information, together with the fall or grade procurable is the only true guide to help us decide upon the size of tile needed in any given drain. It is only when the plan has a picture of the whole object before him that he can draft an efficient yet economical plan of drains for any piece of land.

**Future Benefits.**—The benefits of a plan drawn with the cooperation of the drainage system. Only those of us who have tried long and hard to find a drain, the location of which was nowhere recorded, know the value of guidance such as is offered by a plan. When a tile-drained farm is offered for sale the existence of a plan of drains adds greatly to the value of the farm. The plan is of equal value to the seller and the buyer. With proper care well-constructed tile drains will give good service for several generations; therefore for the convenience of our children and grandchildren it is necessary to have a plan of our underground drainage work.

There is another way in which a drainage plan is very helpful to a farmer. It is a splendid guide toward ascertaining the acreage of any field or part of the farm. Fences are located on the plan, and the whole plan drawn to scale, so that with the aid of a rule it is possible to measure the area of any part of the land surveyed. This is of great assistance in planning a season's crops as well as in calculating yields per acre.

**Protecting Drainage Outlets.** Tile, particularly clay tile, should not run out to the mouth of the drain. If a piece of old gas pipe, eight or ten feet long, can be secured this should be placed in the drain in place of the last few feet. Falling this a piece of corrugated steel, or even a plank trough is much better than running the end right to the water where they will be broken, washed in to the outlet, or otherwise destroyed, allowing the earth to roll in and stop the flow of water.

Under any condition the bank is liable to wear away. Animals pasturing in the field may tramp it down, and block the tile, so in the second place, an abutment should be built through which the outlet discharges its water and the bank will be kept in a state of preservation. This may be made of concrete, stone or plank, and should be a permanent structure. In some cases where the flow is heavy and the water would have a tendency to undermine the wall, it is well to build an apron on which the force of the falling water is broken.

There is still another precaution which should be given due consideration. Presently small animals, muskrats, coons, ground hogs and others, seek refuge in the tile. Here they are entrapped, and form a dam to the flowing water. To overcome such the outlet should have a screen across the end. These may be quite small, and close together so that nothing can get through. A screen may be fitted over the end, but unless the mesh is quite large the water is retarded in its flow. Sometimes the first tile is threaded with wire. This forms a good protection.

When all these devices are given attention, the outlet should remain in a state of efficiency for years, and the system, if properly installed, should give satisfaction.—F. L. Ferguson, O. A. College, Guelph.

The Montreal Tenants Protective Association plans to build apartment house on a co-operative basis.

### AFTER EFFECTS OF INFLUENZA OFTEN SERIOUS

**VICTIMS ARE LEFT WEAK TIRED AND MENTALLY DEPRESSED—TONIC TREATMENT IS STRONGLY RECOMMENDED.**

No pestilence in years has caused more widespread suffering than the epidemic of influenza which swept over Canada in the fall and winter of 1918-19 and again this winter. The danger from this trouble is seldom over when the characteristic symptoms, the fever, headache and the depression of spirits have passed away. Influenza leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves. Men and women who were robust before stricken with influenza find their bodies racked by pain previously unknown to them. This condition is due to an abnormal thinning of the blood and leaves the system an easy prey to other serious troubles. This is the time when the convalescent from influenza should build up the blood with a reliable blood-making tonic such as Dr. Williams' Pink Pills. Weak blood means impoverished nerves, impaired digestion, a feeling of tiredness after even slight exertion, and sometimes even more serious symptoms. When the blood regains its rich red quality the nerves recover their strength and the organs of the body function naturally. In fact building up the blood will vitalize the whole system.

The experience of Mr. Andrew Marty, Bathurst, N.E., will prove of value to a host of influenza sufferers who still suffer from the effects of the disease. Mr. Marty says:—"The new life and consequently new hope brought into my life through the use of Dr. Williams' Pink Pills is almost beyond my power of expression. Following a severe attack of influenza in 1918 I found myself rapidly failing in health, and was naturally much alarmed. I began to lose weight, could not eat, did not sleep well and in a word I was reduced to a mere shadow. I was forced to discontinue

work because of my weakened condition and things had a very blue outlook. I tried a number of suggested remedies, but without benefit. And then one day Dr. Williams' Pink Pills were suggested to me. I acted on my friend's advice, began taking these pills and soon felt an improvement. Every day I seemed to grow stronger and after four weeks' treatment I felt fully restored to my old-time health. From my own experience I feel that if given a fair trial, there is no medicine superior to Dr. Williams' Pink Pills in building up a run-down stimulant. They build up a run-down system."

Dr. Williams' Pink Pills are a tonic blood and not only the disastrous after effects of influenza but also troubles due to poor blood, such as anaemia, rheumatism, indigestion and the general worn-out feeling that affects so many people disappear. You can get these pills through any dealer in medicine, or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**WELL KNOWN PERFORMERS ARRIVE THERE TO JOIN INDUSTRIAL LEAGUE**

**PORT COLBORNE, March 19—** Since the close of the O. H. A. intermediate series here the management of the hockey club has carried through another successful season in the Industrial Hockey League. John More, general manager of the International Nickel Company, presented the league with a beautiful cup last winter which was won by the Canada Furnace team. On Tuesday evening about one thousand people turned out to see the final contest in which the Maple Leafs won the championship.

Four games were played each week since Feb. 3rd, and there were five teams in the league. Every team had some real stars. The Furnace team had Arbour, the Midland centre player, The Nickel team had Kirkpatrick formerly with Sudbury, and Newman Hall, and the Maple Leafs had Shaw of last year's Woodstock juniors, and Meagher, who played centre for Midland juniors this year. Sanderson of Welland intermediates played with the Veterans.

Mrs. M. D. Lawrie of Guelph died while on a visit to her son John in Hamilton.

### HE OFFERED THE COP A NIP AND THAT BROUGHT TROUBLE

The warm and generous heart of Nick Nicol, 22 Peter street, caused him to view the scenery of Hamilton police court from a seat in the dock. It was hinted that he had punctured the O.T.A., but Nick declared that he got his liquor via the prescription method.

P. C. Rolfe told the story of Nick Nicol's generous conduct. At 12.50 last night he noticed Nick walking up and down Locke street, acting in a strange manner. "This way," said Nick very softly when the officer approached him. "He lead the bluecoat several yards down the street, and stopped by a fence. After carefully looking around he put his hand behind the boards and drew out a bottle of whisky. "Have a drop," he offered. P. C. Rolfe confiscated the whole bottle and Nick, too. "He says he lost his wife," asked the officer for directions and wanted to treat him because he showed him the way home," explained interpreter Yarosh on the prisoner's behalf. "He got the liquor by prescription." "Well if he can prove that he got it from a doctor, he can go," the magistrate said. "The fellow was kind enough to offer the constable a drop—it was a cold night, too." Inquiries will be made by the police, and if Nick's story is verified, he will be let go.

**OPEN NOSTRILS! END A COLD OR CATARRH**  
How to Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more sneezing, hawking, mucous discharges, dizziness or headaches, no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving an instant relief. Head colds and catarrh yield like magic. Don't stay stuffy and miserable. Relief is sure.

The cornerstone of the Stamford Women's Institute Memorial Hall was laid yesterday afternoon without any ceremony. It is hoped to have the Hall officially opened some time in May.

### DOCTOR WARD, The Specialist

**SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.** The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

**NERVE EXHAUSTION**  
A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they don't feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, dependent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pains in the stomach. Sleepless, wakeful and restless nights follow.

**RHEUMATIC AILMENTS**  
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

**Quick and Lasting Results, Assured the Ailing Man**  
**BLOOD** YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any "building process" of the body and mind, of the muscle and tissue formations, of any of the various vital organs, can be accomplished only by working direct through the blood stream.
