DANGEROUS AND DESTRUCTIVE.—Remarking upon the large quantities of powder and saltpetre which the United States authorities have accumulated, it is reccommended by Mr. Gideon Wells that inland depots should be procured for the storage of it, in order to prevent accident. He says:—The importance of this subject will be sufficiently felt by reflecting on the terrific consequences of the explosion of five hundred tons of gunpowder in the vicinity of a city like Boston, New York, or Philadelphia. Words can hardly do justice to the disastrous affects of such an event. It would level spire and dome with the earth, and shake either of those cities to their foundation. By an an explosion of a far less quantity of powder than that named, an entire quarter of the city of Leydon was destroyed in 1807, and 150 persons perished in the ruins.

WAR PROSPECTS.—The London *Times*, in its city article of November 18th, says that "the advices from Frankfort state that since the period just preceeding the Italian war the exchange in that city has not witnessed such a panic as is now prevalent there. Speculators and capitalists alike consider the Congress proposed by Napoleon only a preliminary step for war, and cannot be shaken in that belief, even by recognizing the difficulties of the present position of the Bank of France, and many complications the Emperor of France already has upon his hands. Austrian funds have fallen, since the speech became known, about five per cent., and even the most solid stock, such as the shares of the Frankfort Bank, declined from 137 to 132."

PARDON OF A PIRATE.—A Washington correspondent says the President to-day pardoned Alfred Rubers, a young Englishman convicted of high treason, for having fitted out a secesh privateer at San Francisco, in October, and sentenced to ten years imprisonment and a fine of $10,000. The pardon was solicited by John Bright through Senator Sumner, and the President in the body of it expresses his high gratification at having been able to oblige a devoted English friend of the Union.

THE DUKE OF NEWCASTLE.—The public will learn with regret, says an English paper, that the Duke of Newcastle is so seriously ill that he has been unable to attend the numerous Cabinet Councils that have been held of late, and his illness has assumed such a chronic form that he will have to give up, it is feared, the Seals of the Colonial office. A rumor, indeed, has prevailed during the week that his Grace had actually resigned. The loss at such a moment of a statesman of the first class, who to eminent abilities, adds great moral power in the country, is an event very much to be regretted. There are few members of the peerage more highly respected than the Duke of Newcastle, in his public as well as in his private capacity.

NICE CITY TO LIVE IN:—The Indianapolis *Sentinel* says:—Murders, assassinations, slung shot assaults, robberies, burglaries, thieving and pickpocketing, sprinkled with some arson, are now the regular amusements of the night in Indianapolis. Our citizens are knocked down with murderous weapons nightly on our streets. Their domiciles are sometimes fired. They are robbed while lying defenceless. And the most murderous implements known to modern warfare are used.

AN IRON EGG.—In Dresden there is an iron egg, the history of which is something like this:—A young prince sent this iron egg to a lady to whom he was betrothed. She received it in her hand and looked at it with disdain. In her indignation that he should send her such a gift, she cast it to the earth.—When it touched the ground a spring, cunningly hidden in the egg, opened, and a silver yolk rolled out. She touched a secret spring in the yolk, and a golden chicken was revealed; she touched a spring in the chicken, and a crown was found within; she touched a spring in the crown, and within it was a diamond marriage ring.—There is a moral to the story.

☞ Squire C——in his old age took to himself a young and enterprising wife, who immediately after being installed as mistress of the household set herself to accomplish the Herculean task of "putting things to rights." Old C—— was absent during the scouring process, and on his return judge of his dismay upon discovering that his lovely reformer had erased from the walls all his 'book accounts,' where they had been ciphered in chalk for years past. Her pride at her great achievement was therefore somewhat dampened by his exclamation that she had ruined him, for those were his charges against his customers. She encouraged him, however, to attempt to recommit them to the walls from his memory. After his long and laborious task was completed, evidently with great satisfaction to himself, she ventured timidly to ask him if he thought he had got them all down. He replied, very slowly and deliberately: "No, I don't think I have quite all; but then I think I have got them against better folks!"

THE VICTORIA

WASHING MACHINE!

Obtained the FIRST PRIZE at the Provincial Exhibition in London, in 1861.

THIS

LABOUR-SAVING MACHINE

WAS tested by the *Bureau of Agriculture*, and declared to be the best yet brought under their notice. It is simple in its construction, easily worked, and not subject to get out of repair.

The cleansing process is effected by the rapid action of the water in the Machine, and not by *pressure or rubbing*, thereby avoiding the slightest injury to the finest fabrics, with a much less quantity of soap than under the hand-washing system. Persons who have used them are satisfied that the machine is capable of doing as much work in two hours as can be accomplished in a day by the ordinary process, thus

Saving 4-5 of the time and Labour

And two-thirds of the Soap generally used.

The undermentioned persons purchased Machines, and having given them a full trial express their entire satisfaction:

J. J. Wright, Huron Hotel; Isaac Frederick, Jeweller; W. T. Cox, *Signal* office; Alex. Nasmyth; H. Horton, Esq.; Peter Nolan; D. Cummings; Robt. Gibbons, Esq. Warden; Peter Gillies; R. Runciman, Esq.; Rev. Chas. Fletcher. Many other names might be added, if necessary.

CASH PRICE ONLY $6.50.

The Subscriber having purchased the Patent Rights for the County of Huron, is now prepared to supply the machine of which he solicits a trial, feeling assured that all who test it will be pleased with the rapidity and ease with which an otherwise tedious and laborious wash is performed.—Ladies will confer a favor by allowing the machine to be tested at their residence, to which it will be conveyed by the proprietor, and removed again should it not be purchased. All the subscriber desires is that the merits of the Machine should be thoroughly tested. Parties wishing to try it will communicate with the proprietor.

DR. HULL'S

LIQUID

Aromatic Physic

AN

Important Family Medicine

FOR the cure of diseases of the

LIVER AND STOMACH,

Indigestion, Bilious affections, Palpitation of the Heart, Costiveness of the Bowels, Sick-Headache, Piles, Jaundice, and all other cases where an opening gentle physic is required.

THIS MEDICINE

CONTAINS NO MERCURY,

OR ANY OTHER DELETERIOUS DRUG.

BEING VERY PALATABLE,

It will answer for delicate females, or children. It is simply a helpmate to nature, giving energy and a healthy action to the Stomach, the spring of life whence the body derives its succor.

This Medicine being very pleasant to the taste, must become very popular with those invalids who have been sickened with nauseous Castor Oil, Aloes, Rhubarb, &c.

Wherever it has been introduced it has met with great success, and is likely to supersede all other medicines as a good and pleasant physic.
