Atrocious Crime.

Hamilton, May 16.—The police received information to-day which may possibly lead to the disclosure of one of the most atrocious crimes in the annals of Ontario, and which may result in revelations revealing a chain

of murders to prevent rightful heirs from obtaining possession of valuable estates in England.

Twenty years ago the body of Dr. James Douglas, an army surgeon, was found in the Thames River, a short distance from London, Ont. At the request a verdict of death by drowning was returned.

To-day the local police were informed that a prominent man in London sat on the bank of the river and watched two men row up and lift the body of Dr. Douglas from the bottom of the boat and throw it into the water.

For a number of reasons the man who sat on the bank did not tell what

he had seen to the authorities, but some time ago he spoke of it to a friend.

It is charged that the motive for the crime was to get possession of papers Dr. Douglas had that would have given a valuable estate in the Old Country to people who are now residing here. All the information the

police will divulge about their informant is that the party claims he can show proofs of direct descentancy from one of the oldest houses in England and that he is the rightful heir to the estate.

The New Red Cross Liner Stephano

A description of the new Red Cross liner Stephano has been received in the city. The vessel was named by Mrs. A. W. Taylor, of Perth. She has three steel decks, extending fore and aft, and a promenade deck from foremast aft. Special facilities have been provided for loading through hatches and side cargo ports by means of double derricks and winches. The passenger accommodation is on two decks, and is arranged for about 180 first class in cabins de luxe, and in two berth-rooms and 60 second class. The dining room, extend the full breadth of the vessel. It is tastefully panelled in oak and tapestry, and the roof is finished in ornamental Tyne-cast canvas. A spacious hall and music room occupy the fore part of the sheltered deck house. These are lighted by large rectangular windows and an ornamental skylight. The machinery, which has been constructed by Messrs. David Rowan & Co., Glasgow, consists of triple expansion engines, with steam from four high pressure boilers. The construction of hull and machinery has been carried out under the supervision of the owners' consulting engineers, Messrs. G. S. Goodwin & Co., Liverpool.

Questions of Life

Are fully and properly answered in The People's Common Sense Medical Adviser by R. V. Pierce, M.D. As a result of knowing the laws of health and nature, happy marriages are sure to follow. Ignorance leads to misery and ill-health. All the knowledge a young man or woman, wife or daughter should have, is contained in this big Home Doctor Book containing 1008 pages with engravings and colored plates, and bound in cloth. (nearly 700,000 copies formerly sold for \$1.50 each) is sent Free to any one sending 31 one-cent stamps to prepay cost of wrapping and postage. There are no conditions to this offer and the reader must not associate this book with the advertising pamphlets prepared by quacks throughout the country. Address, 662 Washington St., Buffalo, New York.

Skin Like Velvet.

Is greatly to be desired and is very attractive. There is one sure way of making your skin like velvet, and that is by using Snow Cream. It is neither sticky nor greasy, and the general verdict is "it makes your skin like velvet." W. T. COURTENAY, the Prescription Pharmacy, corner Duckworth and Prescott Streets, sells the Cream at 25c. per bot.—if.

T. A. Meeting.

At a meeting of the Total Abstinence and Benefit Society held last night, Dr. O'Connell, the newly-appointed physician to the Society, was introduced by Mr. L. G. Griffin, the Vice-President, who spoke of the doctor's excellent record and qualifications. Dr. O'Connell replied in suitable terms, and in thanking the Vice-President for what he had said about him, assured the Society that he would do all in his power to continue to deserve the encomiums. He begins the practice of his profession in the city to-day.

Annual Tea.

At their rooms last night the Albert Edward Branch of the N. B. S. held their annual tea and entertainment. It was a grand success. About 75 ladies were present and partook of the luxuries provided for the tea table so bounteously by the ladies. Having done justice to the viands the ladies repaired to the meeting room where an enjoyable programme of songs, sketches, etc. was rendered. Those who kindly assisted were Messrs. Bussey, Samuelson, Ellis and Tucker. The chair was occupied by Mr. A. H. Martin in the usual capable and satisfactory manner.

Revival in Cricket.

Though for a while it looked as if those who are interested in the revival of the game of cricket would have to abandon the idea for lack of support, it now seems as if the noble old game will be given another new lease of life and that interesting matches will occur this summer. Those who have been looking after the financing of the scheme for the hire of St. George's Field have secured nearly \$1,200, and have been promised other liberal donations. There are five good teams ready to take their share in resuscitation of the game, viz., Shamrocks, St. Bon's, Holloway, City and Casuals, and a meeting will soon be held to try and conclude matters so that a ground for matches may be acquired.
