"GOOD CLOTHES."

We all like to wear what we call "Good Clothes." Now good clothes are costly—not dear—but they become dear if they have to be discarded practically unworn. The French Dry Cleaning Process meets the difficulty. We can afford to buy the best and most beautiful fabrics without being extravagant, because of their quality we can rely on being able to have them restored by this process to their original beauty quite often enough to enable them to be eventually discarded without a lament.
