Holy Name Society.

Yesterday afternoon the members of
 the Holy Name Society attended
 Benediction of the most Blessed Sacrament
 at the Cathedral. Rev. Dr. Green
 spiritual director of the Society, officiated.
 At a meeting held in their rooms
 afterwards the following resolution
 was proposed by Mr. John Phelan and
 seconded by Mr. John Peddle:

"Whereas it has pleased the Al-
 mighty God to call from our midst the
 soul of our brother member, Patrick
 Christopher, we, the members of the
 Holy Name Society, desire to place on
 record our appreciation of his long
 and faithful record as the senior mem-
 ber of our Society and to extend to the
 family of our deceased brother this
 expression of condolence in their
 affliction.

"And be it further resolved, that
 this resolution be inscribed on the
 minutes of this meeting and a copy be
 forwarded to the family of the de-
 ceased."

"The meeting yesterday was the
 largest for many months."
 The lately started Juvenile Branch
 has made great progress.

Ill at Montreal.

News has been received in the city
 that "Jack" son of the late Professor
 John Bennett, the famous Newfound-
 land Musician, is very ill in Hospital
 at Montreal. He was with a Canadian
 overseas battalion and was both gas-
 sed and wounded and has undergone
 several operations. Every attention is
 being paid him at the Montreal in-
 stitution and we trust that our gallant
 young fellowcountryman will ere long
 be about again.

MINARD'S LINNET FOW SALE

More Heat on Less Fuel.

Many thousands of users in City, Town and Coun-
 try have learned from natural experience that the
 Caloric, the Original Patented Pipeless Furnace, heats
 the homes better than they were ever heated before,
 in all kinds of weather. Also that it save one-third to
 one-half the Coke, Coal and Wood. If you want real
 winter comfort, if you want to turn your houses into
 homes, and if at the same time you want to cut your
 heating expenses to practically one-half, install a Calo-
 ric. The cost of installation and maintenance, in
 money and labor, is much less than the number of
 stoves required to heat the same space. Thousands of
 Caloric users have paid the first cost of their furnace
 through the saving of fuel. It can be installed as
 quickly in the old houses as in the new, frequently in
 a day, because it has but one register, and requires
 no pipes in floors or walls.
 More than fifty thousand Calorics are giving satis-
 factory and economical service in all types of homes,
 up to eighteen rooms in size, as well as in churches,
 stores, factories and other buildings.

Read the following testimonial from one of our
 customers:—

St. John's, Newfoundland,
 November 12, 1919.

Messrs. Bowring Brothers, Ltd.,
 Hardware Department.

I have installed the Caloric Pipeless Furnace
 in my home (it is also the first Caloric in New-
 foundland) and find it to give all the satisfaction
 claimed by its manufacturers. I would therefore
 recommend it to anyone that wants the most per-
 fect system of heating by the circulation of warm,
 moist air through one register.
