Stocks and Bonds!

Due to the impending strike in England, the general market shows signs of sluggishness, and investors who watch conditions carefully should make some very profitable deals.

Better decide early the lowest prices you will pay for bargain stocks and place your orders promptly to be sure of having them filled in the event of a downward tendency.

Anglo-American Telegraph Company.

Effective commencing April 9, deferred Cable Service is reinstated in Great Britain and Ireland, and the principal countries in Europe, Africa, Asia, Dutch East Indies, Australasia (rate for Australasia is that via Eastern and Indo only), Argentine, Bolivia, Chile, Paraguay, Peru (except Wireless Stations), Uruguay and Brazil (except Acre District and Amazon River stations). The deferred service will be, on the usual basis of plain language and deferment in favor of full rate messages and the carrying of a prefix LCO, LCD or LCF as the case may be, in all cases including that of Great Britain and Ireland exactly one half the regular or full rate to country of destination.

This valuable service at one half normal rates has not been available since September 1918, when it was necessarily suspended because of the congested condition of the cable system throughout the world. The Anglo-American Telegraph Company and the Western Union have taken advantage of the first opportunity since the war to reinstate this service.
