### TEETH EXAMINED

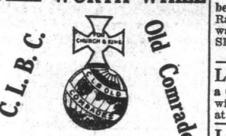

### DR. LEHR, Dentist,

329 Water St. RECOGNITION. The care of the teeth is now recognized as a necessity. In fact the large hospitals all over the world examine the patients' teeth and where it is possible put them in good condition before attempting a surgical operation. Experience has shown that the patient has a better chance for recovery with a clean healthy mouth than without it. This ought to convince the most sceptical that care of the teeth is requisite to health. -oct31,24
