

THE BROOM-MAKERS

Vouch for the Statement of A. Bong, of 10 Leslie Street, London.

Had to Work Ten Hours a Day—Suffered With Backache Severely—Dodd's Kidney Pills Made a New Man of Him.

London, Ont., Jan. 1.—The broom-makers of this city are as industrious and make as much money as the average broom-maker in this country.

Only those who have suffered with backache know how disabling and painful the trouble is. It is wonderful how every movement of the body seems to jar on the back.

The reason of this is that backache is not backache at all literally. Backache is kidney ache, and every movement of the body shakes the disordered kidneys to a greater or less extent and keeps them in a constant state of irritation.

Only those who have suffered with backache know how disabling and painful the trouble is. It is wonderful how every movement of the body seems to jar on the back.

I have been troubled with a very severe pain in my back and I concluded to take some Dodd's Kidney Pills. I have done so, and I find they have cured me.

I remain, yours truly, A. BONG.

New Way to Thread Needles.

An ingenious lady has suggested an improvement in the method of holding a needle for the purpose of threading it. It is to be held between the thumb and index fingers of the left hand and of the thumb and forefinger, palm uppermost.

No house is safe without a bottle of HIRST'S PAIN EXTERMINATOR. It is a great Family Remedy.

The Table Mountain Ropeway.

The ropeway located at Table Mountain is an important example of a fine 5,280 feet long. It consists of a single fixed rope on which one carrier is drawn to and fro with an endless hauling rope, the driving gear having reversing motion so that the direction of travel of the carrier can be controlled.

False and True Bravery.

It is but a poor compliment to a soldier—or, rather, it is not a compliment at all—to say of him that he was absolutely ignorant of fear. It is the overcoming of fear, not the entire absence of it, which constitutes bravery.

Do not put off. Delays are dangerous.

HIRST'S PAIN EXTERMINATOR. Acts like a charm for Lumbago.

The Cases Were Different.

A story is told of an ex-judge in New Jersey who is cashier of a bank. One day recently he refused to cash a check of \$5,000 by a stranger.

Old Gentleman.—Do you mean to say that you teachers never thrash you? Little Boy.—Never! We have moral suasion at our school.

Miller's Worm Powders cure fits in children. Inquiring Child.—Papa, why do people cry at weddings? Papa (abstractedly).—Most of them have been married themselves.

Oyster Recipe.

It is possible that an oyster soup served on two successive weeks might pall on some appetites, for there is nothing so conducive to appetite as variety, but as there are many different kinds of oyster soup it need not be served twice alike in the same month.

A DANGEROUS INNOVATION.

The Startling Finale to One of Shakespeare's Scenes.

At a small seaport town in England a star actress of the third magnitude appeared as Juliet. "I cannot do justice to myself," she said to the manager, who combined a theatrical enterprise with the conduct of a row of bathing machines.

Juliet appears. Prompter lights the match. But soft! what light through yonder window breaks? (This was the match lighting the fuse.)

Arise, fair sun! The sun, or rather the rocket, did rise with a hiss that sounded far louder in a theatre than it does in the open air.

Catarrhozone is simply nature's method of applying the balsamic and healing properties of the pine woods, fortified by other germicidal ingredients.

Cure Catarrh Now.

The Best Season to Begin the Treatment of Catarrh for a Permanent Cure.

Catarrhozone: What is it? It is vegetable—entirely vegetable in composition, and an absolute destroyer of disease germs which cause and maintain Catarrh.

Catarrhozone cures because it can be carried directly to the diseased parts; cures because it powerfully stimulates the mucous membrane to its normal action; cures because through its oxidizing power it burns up the old tissue and stimulates the formation of new healthy tissue.

It is not a wash; you cannot force liquids in the lungs. It is not an ointment to be snuffed up into the nostrils or to be poured down the throat, both useless as well as disgusting.

It is not a powder to be snuffed up the nostrils to still further irritate the already congested and irritated mucous membrane.

Catarrhozone is simply nature's method of applying the balsamic and healing properties of the pine woods, fortified by other germicidal ingredients.

WOMEN OUTLIVE MEN.

At Least That is the Showing of Some Statistics.

It is strange but true that the most delicate child often outlives his stronger brother or sister. Many instances are on record of the long survival of those who seemed destined to die early.

Even more interesting than this is the statement by Professor Buchner that it is possible for a woman to preserve her youthful beauty even to old age, or, in some instances, to regain it.

The Marquise of Mirabeau died at eighty-six with all the marks of youth in her face. Margaret Verduin, at sixty-five, smoothed out the wrinkles, her hair grew again, and her third set of teeth appeared.

The Professor has still further hope for the fair sex in the announcement that women live longer than men. One French woman, Marie Prioux, who died in 1838, was said to be 158 years old.

Statistics of the various countries on this point are remarkable. In Germany only 413 of 1,000 males reach the age of fifty, while more than 500 of 1,000 females reach that age.

In the United States there are 2,387 female to 1,398 male centenarians. In France, of ten centenarians seven were women and only three men. In the rest of Europe, of twenty-one centenarians sixteen were women.

The oldest person now living is held to be Annie Armstrong, who is 117 years old, and lives in a little town in county Clare, Ireland.
