TORONTO GLOBE: The Hamilton Specdon Advertiser, which points out the inconsistency between the Spectator's attacks on the Ontario Government, and practically on the Education Department, and Effectual Calling." The section of the tis assertion the other day that Hamilton had the best public schools in Ontario, and Ontario the best in the world. If the Spectator's statement be true, the credit of it must certainly be due to the Education Department, and to Mr. Ross as its official head.

Col. Morin, M.P.P., has been made the nominee of the Liberals of Welland for reelection, and there is little doubt that he will be elected. The Tories are quarreing like cats and dogs. At their recent consideration is a subjustice.

vention, the secretary (Mr. Potter) said Capt. Murray, the president, had abused him in a brutal manner, and called him all - names. He denounced Capt. Murray as a selfish blackguard, who was not a fit associate for gentlemen. Capt. Murray retorted in kind, threatened to throw Potter out of the window, and there was a high old time generally. Murray, however, was re-elected president, and Mr. Potter, despite his antipathy to the former,

Mr. Meredith opposes the bi-lingual series of readers, which the Royal Commission recommended as the best agencies by which to teach children in the Frenchspeaking districts of the Province. He professes to be shocked because the Government has followed out the advice of Rev. Mr. McLeod, Inspector Tilley and Professor Reynar, but neither he nor anyone else need be frightened. The bi-lingual readers have for years been in use in 287 Canadian schools in New Brunswick, and with the best results. The Ontario Government does not undertake to please unreasonable men, but we believe its action in regard to the teaching of English in schools bordering on Quebec Province will be indersed by all easonable and patriotic citizens, who wish to see English thoroughly taught in these French-speaking districts

REPOSSESSING AMERICA.

British capitalists are still going ahead, acquiring Brother Jonathan's property and making good investments for themselves. The latest reported acquisition is the extensive mining machinery plant of Messrs. Fraser & Chalmers, of Chicago. This firm is no doubt the largest of its class in the world, and its machines are in world-wide ase. The price at which the property has been acquired is understood to be \$2,875, 000, of which \$1,115,000 is to be paid in shares of the new company, and the four members of the old Chicago firm are to remain in active connection with the business. It is stated to be the intention of the new organization to erect a large establishment in England, where they will manufacture for the foreign trade, leaving the Chicago branch to supply the United States and Canadian markets. In this way Great Britain is gradually repossessing the Amer-

REVISING THE PRESBYTERIAN CREED.

Both in Scotland and on this continen there is an influential body in the Presbyterian Church which has reached the con-clusion that the time has come for a change in some of the declarations of the "Stand-They argue that the compilers of the Westminster Confession of Faith, venerable fathers and able theologians though they were, could not be expected to interpret the doctrines of the Scriptures In the Parry Sound district snow is a foot with as much clearness in the imperfect light of 200 years ago, as the Church of today can do. Indeed, they do not hesitate than their brethren in Michigan and Wis- to point out where, in one or two notable particulars, the Fathers appear to them to have erred in regard to the divine scheme that all the discussion has been raised. The Confession of Faith of the Presbyterians of this country is substantially the document drawn up by a convention of divines which assembled at Westminster in the year 1643, and completed its labors in its assertion the other day that Hamilton third chapter over which there is contro-

The wisdom of retaining these declarations, as here set forth, in the creed of the Church, having been questioned by not a few eminent divines in the United States, the General Assembly North sent the macter down to the Presbyteries to consider and report to the meeting to be held next summer. As a matter of course, the chief interest in the deliberations of the Presbyteries has centered in the pioneer organization of the Church in North America—the Presbytery of New York which for many days has been discussing the question, such Trojans of debate as Dr. Howard Crosby, Dr. Vandyke and Professor Charles Briggs taking the position in favor of making whatever change was necessary and generally asked for. On the other nand, the veteran Dr. John Hall and Dr. Paxton, of Princeton, opposed any re-

change:

1. We desire that the third chapter after the first section be so recast as to include these things only: The sovereignty of God in election, the general love of God for all mankind, the salvation in Christ Jesus provided for all and to be preached to every creature.

2. We desire that the tenth chapter be so revised as not to appear to discriminate concerning "infants dying in infancy," or so as to omit all reference to them section threel, and so as to receive the section of the section four, the section of section

Elder Henry Day, of the Farmers' Institute, without regard to the Fifth Avenue Church, said that they had previous political proclivities of its mem-bers, voted unanimously for free corn at their grandfathers. They were not bound its last meeting. Mr. Marshall says, in effect, he does not care a continental tion of infants. Prof. Charles Briggs whether the farmers desire free corn or not. The Tory leaders stick by the combines, and let the Canadian whisky distillers import corn free, under similar circumstances, but the farmer cannot be put on the same level as the whisky maker.
