IN FULL SWING.

Yesterday's Doings of the Y.M.C.A. Convention—A Splendid Time All Round.

A Very Profitable Gathering—Hon. John Robson's Remarks—Many Interesting Particulars.

Yesterday morning, at 10 o'clock, the Y.M.C.A. Convention started in its hard day's work, when Rev. J. H. White, pastor of the George Road Methodist Church, opened the proceedings with an earnest prayer for the success of the meeting.

At 10:30, an ably written paper by Mr. Grey, of Vancouver, who unfortunately was unable to attend, was read by Mr. Humpson, of Victoria, and listened to with great interest.

At 11 o'clock, Mr. J. B. Grimshaw, Assistant Secretary of the Victoria Association, read a paper on the subject of Christian work for young men.

When the speaker had concluded, Mr. J. R. Mott, the International Y. M. C. A. Secretary, commented at length on the paper, and added a good deal of sound information.

At 11:30 the following series of papers were read: "How to Secure the Best Attendance," G. A. Gossard, Nanaimo; "The Leader," Vancouver; "How to Conduct the Service," W. B. Greig, Westminister.

One of these addresses was as follows: "What is this Young Men's Christian Association?"

Association of young men working for their fellow men. It is a meeting held for the purpose of making young men Christian men.

When the speaker had concluded, Mr. J. R. Mott, the International Y. M. C. A. Secretary, commented at length on the paper, and added a good deal of sound information.

M. QUAD'S SKETCHES.

The Mystery of a Box of Brazilian Diamonds—Red Hot Beliefs for Sharks.

Eye-Witness to the Fatal Descent of a Snow Avalanche—Everybody Was "A-Gittin'."

(Copyright, 1892, by Charles B. Lewis.) In the year 1867 I found myself at Rio Janeiro, Brazil, just out of hospital, not a dollar in my pocket, and ready to ask the American consul to send me to the United States in the name of charity.

I had been out with an American whaler, and had been left there so broken in health that no one supposed I could live two weeks. As the ship had taken no oil there was nothing coming to me. Indeed, I was in debt to her, and but for the few dollars advanced among the men I should have been a pauper on landing.

One afternoon, while I was on my way to the consulate to see what help I could obtain, I encountered an Englishman, whom I at once identified as a sailor—captain or mate. He stopped and inquired if I had given him the information he sought.

"It's a bit of luck that I met you! I've got a place for you, and we'll drop in somewhere and have a glass and a talk." He was a honest spoken man, but a cautious one. He did not unfold his plans until he had pumped me pretty dry and apparently satisfied himself that I was a man he wanted.

Even then I only got a part of the story, and an snail in dark spots on the back and exclaimed: "It's a bit of luck that I met you! I've got a place for you, and we'll drop in somewhere and have a glass and a talk."

He was a honest spoken man, but a cautious one. He did not unfold his plans until he had pumped me pretty dry and apparently satisfied himself that I was a man he wanted.

FOOD FOR SHARKS.

I doubt if a ship's crew ever had deeper reveries than those of the sailor Jack's implacable enemies. The muskets were brought up and four of the men told off to use them.

A fifth man was given charge of a whale lance, and the rest of us were kept busy whittling our whistles until the shark was called by humanitarianism.

We heated bricks red hot on the galley stove, swiftly wrapped them up in clothes, and then no sooner said than done, we went into the water to work the shark.

As soon as the shark was wounded by ball or lance so as to leave a trail of blood he was at once savagely attacked by others, and our hot briquets soon returned a dozen or more big fellows well upturned.

A regular circus for about three hours, during which at least fifty of the monsters were slaughtered, and then the schooner was ordered to get down to sea level.

As I accidentally discovered, but he did not come near the schooner, and Captain Roberts visited him only by night.

We were so well provisioned that some of our men have taken a big slug of rum, but I was not lying in wait behind the schooner.

When I did descend I found the schooner lifting to the casks, and after attaching three or four more she slowly rose to the surface.

We then got into a depth of about fourteen feet and then away she went to the bottom.

She went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom.

She went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom.

She went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom.

She went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom.

She went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom, and we went to the bottom.

She went to the bottom, and we went to the bottom, and we went to the bottom, and we went
