It is entirely in accordance with the custom followed in former years; Mr. E. E. Blackwood says, that the cnet of the Victoria-Sound round trip has been made; as announced in these columns. There is no attempt to introduce a rate war. Mr. Blackwood says that his company is confident that the increased patronage will amply make up for the cut, as it has always done in the past years, when the same cut has been made at holiday times. The company hope, by making this absurdly low rate, that many will be induced to come over to Victoria's great annual celebration. The company are perfectly prepared to handle all the business likely to offer. The dollar rate applies from all Sound points and from Port Townsend and Port Angeles. Mr. Blackwood says that the company have made special arrangements for handling the patrons of the line expeditiously on the return trip, and every effort will be made to get the people home in good time after the celebration. The prisoner's wife, who was examined on his behalf, created a mild sensation in the afternoon by fainting when examined by prisoner's counsel as to the assaults made on her by the lumbermen who were with Magee on the night of the killing. Oardinal Gibbons occupied a seat on the floor of the Commons chamber this afternoon. A strauge coincidence is that Cardinal Gibbons, whose work for the laboring men of the United States has made him world-famed, should, on the occasion of his first visit to the Canadian Commons, listen to a debate on the labor question. It was precipitated by Mr. Clare. South Waterloo, who moved an amendment to the Grand (Trunk Pacific bill, restricting the employment of engineers, etc., in the local survey to Canadians and other British subjects. Mr. Clare showed that Sir William Mulock, since being created minister of labor, had done absolutely nothing to protect the Canadian workmen against "Yankee" competition. Mr. Clare's amendment was defeated by 86 to 50, Puttee (Labor), voting with the opposition. Ralph Smith, of Nanaimo, voted against. The Conservatives cheered loudly at the reduced government majority.

Cardinal Gibbons was tendered a reception by the citizens tonight. He made a brilliant reply urging that all disputes between Canada and the United States should be settled by arbitration. In the Supreme court today the Yukon appeal, Letoumean vs. Carbonnean, arising out of a dispute regarding Gold Run claim, was argued.

Hon. Clifford Sifton in the House said that 607 acres of land were sold to Hewitt Bostock from within the railway belt. There were 123 acres which cost \$2.50 per acre and the balance was \$5 per acre. Particulars of this sale were published in the Canada Gazette some time ago and given in this correspondence.

Sir William Mulock announced that Mr. Winchester, Toronto, had been appointed to investigate the matter of the Grand Trunk Pacific employing American surveyors in violation of the Alien Labor Act.

The transportation commission is sitting here today taking evidence as to the navigability of Hudson Bay straits.

The Cossacks, who are believed to be at Kyongsang, have according to knorean reports, about twenty guns with them. If this is true, this artiliery probably is composed of trans-Bankal horse batteries, several of which were attached to the first corps at Vladivostock before the war.
