The Career of a Dreamer.

A few days ago the telegraph wire informed us how an Italian landing at New York prostrated himself in an excess of pleasure and kissed the soil of free Americathe land of liberty. The telegraph wire yesterday informed us that an Italian was found assassinated on the streets of New Orleans It is net impossible that this is the guileless ground-kisser already gone up the flume of time before he had his lips well wiped.

Using a figure of speech, many a stranger raptureusly kisses the soil of free America and is never allowed to get his nose out of the dirt again for the term of his natural life. He is crushed into the soil for which he feels such excessive affection. Many a stranger kneels to thank Heaven for allowing him to safely reach the land of liberty, and en concluding his gladprayer finds his pockets picked, his wife divorced from him and remarried to some native son of liberty, and a married to some native son of liberty, and remarried to some native son of liberty and liberty and liberty and liberty and ets picked, his wife divorced from him and remarried to some native son of liberty, and

habitual and craven submission of the weak to the power of the strong. Such peace would be ruinous in its effect upon human walk and the running broad jump, there were no club, held on Saturday, were a great success, with the exception of two events, the one-mile walk and the running broad jump, there were no character. To be a blessing perpetual peace must come as a result of universal integrity and manifiness that considers not question of strength or expediency, but is just for the sake of justice.

That was a creditable scene on the field of Lundy's Lane the ether day. Though we honor the brave in war and treasure the bones of those who fell in the country's cause. When universal peace comes and the millennium is here, we conceive that the purified and tranquil human heart can find elevation in honoring the heroes and martyrs of history.
