Mr. Shipman says that the company holding the charter has a capital stock of \$350,000 and will shortly put on one large steamer capable of carrying 28 freight cars and 100 passengers across the lake. THE CITY TAX SALE. idders Were Few and Property Not in

Inspector Awde acted as auctioneer at the city's sale of land for taxes yesterday at the City Hall. Out of 1200 lots, about one in every 20 was sold for the amount of taxes. There was very little bidding, none of those present showing any great anxiety to accumulate any more property. The bulk of the land offered is situated in Wards one, five and six. Some of the lots were bought in by speculators with a view of securing the ten per cent. if the land is redeemed by the over.

The Civic Reform Wuddle.

The Citizens' Civic Reform Committee is not well pleased with the actions of Ald. Davies, who was chairmar of the special committee appointed by the City Council. At the last joint meeting of the two committees it was understood that another meeting would be held, and that the report of the Citizens' Committee would be sent on to the council for discussion. This was not done, and the Citizens' Committee feels that it has not been treated fairly.

The council will meet this afternoon to remedy the mistake made in the bylaw at the last meeting.

the slaves working there, but they seemed to be indolent. All the energy and manhood apparently had been taken out of them by the brutal work and long hours. One of the men did summon courage enough to tell me he and his fellow-laborers worked from 12 to 16 hours per day, amd their woebegone faces told the tale too plainly. But Mr. Editor, what I want to ask is, Where is our Health Inspector? It is time the aldermen took the Health Inspector to task for his negligence in this all-important matter. And if he is unwilling to do his sworn duty, let him be retired and a man put in his place that will look after it. On inquiry I find there are five or six of these filthy shops in the city.

I visited other bakeries that were medles of cleanliness, and, strange to say. I found the men in these clean, well-regulated bakeries working from eight to ten hours per day. As a rule I found that the dirtier and more filthy the bakery, the longer fhe men were required to work. The proprietors of these abominable bakeries seem to grow rich on dirt and stolen labor. How long will the people tolerate it?

Robert de Bruce Camp Elections.

At the County Court yesterday, before Judge Morgan, George McLean, drygoods merchant, Toronto, brought action against J. O. Peck, merchant, of Windsor, for breach of contract. McLean leased a building in Windsor, and his wife went into business under the title of McLean entered into an arrangement with Peck whereby the latter, if he purchased the goods in the building, was to pay \$150 for his interest in the lease. Peck bought the stock, but, according to McLean, did not carry out the rest of the agreement. Judgment was reserved.
