The principles on which the Bow Park sales were originally established, were: 1st. That the stock should be kept in good breeding condition, but not over-fattened. 2nd. That no animal unfit for breeding purposes within the knowledge of the proprietor, should be sold, without a clear statement of the fact. 3rd. That no animal offered for sale should be without drawn, without the consent of the buyers present. And 4th. That no bid on any animal should be made by or for the proprietor, directly or indirectly. These principles have been firmly adhered to at all previous sales, and will be maintained at this one.

On the day of sale a printed list of these several dates of service will be distributed.
