

Dr. F. X. DeMartigny also read some communications from Paris on Technical subjects.

The Auditors, Drs. Dickson and Marois, then reported on the Treasurer's books, showing that the balance from last year was \$132, while the receipts this year were \$156, making a total of \$288.52, of which a balance of \$62.40 still remains.

The thanks of the meeting were then unanimously tendered to Dr. Small, in recognition of the able manner in which he had, as treasurer, kept the books.

A vote of thanks was likewise passed to the doctors of Quebec, and especially the Local Committee for the handsome manner in which they had received the Convention.

Another very strongly-worded motion was also moved, seconded, and unanimously passed, expressing the physicians' high appreciation of their delightful trip to Grosse Isle, and their sense of its magnificent equipment. The mover, Dr. Meyers, of Toronto, dwelt upon the magnificent development made by the Station during the last 26 years, until it is now second to none, and embodied in his motion the enthusiastic sense of the meeting, that the Government should

#### RETAIN DR. MONTIZAMBERT

as their Superintendent of Quarantine. He said that almost all that had been done at Grosse Isle was due to Dr. Montizambert, and spoke briefly of his great scholarly attainments, and of the very high stand he took among medical scientists the world over. These remarks were applauded to the echo. Dr. Parke seconded the motion.

Dr. Dickson, of Toronto, moved that the thanks of the Association be tendered to the authorities of Laval University for the use of their splendid building and room.

Dr. Small moved that a vote of thanks be passed to the transportation companies who had carried the members at reduced fare, but suggested that some more convenient means of getting the reduction than the bothersome certificate system be sought for.

Dr. Mullen, of Toronto, moved that Dr. Beausoleil vacate the chair and that Dr. Roddick act as chairman.

He then proceeded to move a vote of thanks to the highly esteemed President for his efforts on behalf of the Association, which had so largely contributed towards the success of the meeting, one of the best that the Association had ever held. He could well remember that the first meeting of the Association, which he attended, was held at Niagara Falls, and was under the Presidency of a Quebec physician, the late Dr. Marsden. Since then he had had the pleasure of knowing many Presidents of the Association, and it was with pleasure that he remarked how prominent the men all had been. Having commenced under a Quebec President, it was gratifying to him to now attend, under a presiding officer taken from among the French-speaking brethren, one of the most delightful and most successful meetings that the Association had held since its foundation. The motion was warmly seconded by two or three gentlemen, and was then put to the house by Dr. Roddick,
