What is Killing Your Lawn?

Dandelion, Buck Plantain and Crab Grass secure such a hold on many lawns that the grass is completely smothered out.

The **Clipper Lawn Mower** is the only mower that will cut and drive these weeds from your lawn and it will do it in one season.

Old style mowers catch the top of the grass, jerking it, breaking the feeders at the roots and killing it. The Clipper Mower does not touch the grass until it cuts it. In this way the feeders of the roots are not broken and the grass becomes thick, producing a beautiful lawn. **WRITE FOR CATALOGUE.**
