APPRAISAL SERVICE

FOR

INSURANCE AND FINANCIAL PURPOSES

EVERY manufacturer should make a careful study of fire insurance. If Co-Insurance is carried, the insured must satisfy himself as to the true present worth of his plant before he can safely and economically place his Insurance.

An Appraisal will establish the values necessary to determine the correct amount of full or percentage insurance that should be carried. It also forms the only independent proof of loss in case of fire.

Our Appraisals are based on present day replacement costs, are exhaustive in detail and departmentally classified.

Our Plant Ledger is a medium whereby our Appraisals can be used to advantage by your accounting department at all times as a sound basis for your cost accounts and for keeping complete detailed data of unit repair cost and capital additions to Plant.

We solicit your correspondence.
