LIVERPOOL MARKETS.

[Compiled for the Canadian Illustrated News]

The proprietor of the Canadian Illustrated News has arranged to insert weekly reports of the Liverpool Price Current Circular of A. R. Macpherson & Co. It had been announced in March last, but a change in the proprietorship of this journal led, by accident, to this useful item of intelligence being overlooked. We owe an apology to Messrs. James Skinner & Co. for that omission, and now thank them for the renewal of their kindness.

A. R. MACPHERSON & CO.'S REGISTERED PRICE CURRENT.

LIVERPOOL, June 30, 1863.

Large table with multiple columns listing various commodities like Pork, Bacon, Lard, Flour, etc., with their respective prices.

PETROLEUM.

Table listing petroleum products like American Crude, Canadian, Refined Burning, etc., with prices.

We have to report a moderate consumptive demand in our provision market this week at about previous rates.

BEEF.—The transactions are not large, but as there is little pressure to sell, prices are rather firmer.

PORK is dull, and inferior parcels most difficult to sell.

There has been more doing in Bacon, both for export and home consumption; prices vary according to quality. Hams quiet. Shoulders in more request.

In Lard there has been considerable activity, and the sales reached nearly 1000 tons.

CHEESE.—Fine qualities are in demand, and realize fully late quotations; but inferior sorts are quite neglected.

BUTTER is a slow sale, chiefly for export. TALLOW lower. LINSEED CAKE dull.

THE CORN MARKET was more buoyant in the early part of the week, but there has since been a lull in the demand, and prices are now scarcely so firm.

PETROLEUM.—Sales of Crude have been

small, say 50 Tuns Pennsylvania, at £16 15s., and 100 Tuns Canadian, at £8 10s. to £9 10s. Holders are firm, and higher prices are looked for soon. Refined is quiet but firm. Sales of American, at 1s. 10d. to 2s., and none now offering under 2s. No sales of Canadian reported.

TORONTO MARKETS.

Toronto July 9. The supplies were moderately good and prices without material change. Fall wheat was more brisk, with a slight improvement in the price of inferior grades, which drew \$5c to 90c per bushel, and good to prime qualities 90c to 95c Spring wheat sold freely at 80c to 83c per bushel for prime qualities, and 75c for inferior grades. Fig. 1, on right, is a gallon measure with three legs, two being portable, the third forming the spout; a piece of glass with figures on either side shows the quantity of liquid contained, while the small handle at the top, by being pressed, opens a valve at the bottom which allows it to pass through. Fig. 2, on left, is the same kind of apparatus, the valve being opened by pulling the handle. By this contrivance the merchant may possess a Measure and Funnel combined which will save him considerable expense and no end of trouble and annoyance.
