

# OCEANIC EQUIPMENT

## *Canada's Ocean Industries: Products and Services for World Industries*

**C**anada owes much of its development to its waterways and oceans. The rivers and lakes were the highways of yesterday and are still the nation's lifelines of transportation. And Canada's coastlines are bordered by three oceans whose waters and seafloor hold vast wealth. This directory acquaints foreign buyers with Canadian exporters of oceanic equipment and services. It includes profiles of the industry's leading manufacturers with handy appendices listing companies according to a wide range of product and service categories. (English, 1987)

# OIL, GAS AND MINING

## *Canadian Mining Equipment and Services*

**T**his directory profiles more than 115 of Canada's leading mining-equipment manufacturers and suppliers of related services. The companies listed have proven their capabilities in meeting the most demanding mining and exploration applications throughout the world. (English, French, Spanish, 1987)

## *Oil and Gas Products and Services for World Markets*

**A**bundant oil, natural gas, coal and uranium deposits make Canada a major energy producer. This directory profiles leading
