

and an assessment of the impact of free trade agreements on Canada's automotive sector.

Through this volume, Foreign Affairs and International Trade Canada seeks to continue to contribute actively to the discussion concerning the role of international trade and investment in Canada's economy and in the global economy more generally, to continue to work in the spirit of the broader commitment of the Government of Canada to stimulate the development of its applied research capacity, and to further develop links with professional and academic researchers in the field of international commerce.

This volume was produced under the guidance of Anthony F. Burger, Chief Economist, Foreign Affairs and International Trade Canada.
