| 11   | 243 | Matane.....          | Mrs. Moreau's.     |

Road to Notre Dame du Portage clay, but very good in dry weather, thence to Riviere du Loup are good roads in any weather.

From Riviere du Loup to Cacouna, road a little hilly but good, sandy soil. Turn south at Cacouna church to first cross road, and then due east to Isle Verte church. Splendid roads, sandy and rock soil and level road. From Isle Verte to Trois Pistoles, three pretty steep hills (two up and one down, going east), balance level and road generally good. Trois Pistoles to St. Fabien, good level road for a distance of 8 or 9 miles, balance hilly. St. Fabien to Bic still hilly and road fair. Bic to Matane *via* Grand Metis and Little Metis, best stretch of road in the country, splendid marine views, almost level.
