

"ABSOLUTE POWER" IN FIXING PRICES

International Harvester Co. Severely Scored by McReynolds.

CALLS IT CONSPIRACY

Held Ninety-Eight Per Cent. of Nation's Business in One Line.

ST. PAUL, Minn., Nov. 5.—(Can. Press.)—Attorney-General James McReynolds, concluding his final argument for the dissolution of the International Harvester Company before the United States district court this afternoon, asked that an interlocutory decree be entered by the court, declaring the Harvester concern a monopoly in restraint of trade, but he requested that the defendants be given a reasonable time to submit to the court a proper plan of reorganization.

Company's Corner on Trade. The International Harvester Company in its first year, held the following percentages of the nation's business in the varied lines: 98 per cent. of the binders, 83 per cent. of the corn binders, 92 per cent. of the mowers, 88 per cent. of the rakes, and 40 per cent. of the tractors, said Mr. McReynolds. He added that there was nothing to show that the situation had changed in the last ten years.

"No man who looks upon that picture can fail to see that this concern had the absolute power to fix prices," said Mr. McReynolds. "Of course, there was no desire to get 100 per cent. of the business. A certain amount of competition keeps down public sentiment and helps in other ways."

"Intent is wholly immaterial. Philanthropic purposes cannot be pleaded as justification for the result. I say when the defendants purposely entered into this organization, into this conspiracy, they laid themselves liable to be charged with guilt for the result."

At the conclusion of Mr. McReynolds' argument, court was adjourned, and the issue was taken under advisement. Mr. McReynolds expected to leave for the east late tonight.

DREDGE LOST THRU COSTLY MISTAKE?

Port Nelson Said to Have Been Wrecked on Big Rock.

OTTAWA, Nov. 5.—It is reported here that the loss of the new government dredge, the Port Nelson, in James Bay, was due to the lack of precaution on the part of those in charge.

According to the latest advice, the dredge was based up on the beach at a high tide that the valuable piece of apparatus might be placed beyond the chances of damage by ice. The plan was to let the dredge down on the soft mud and take it off in the spring.

Unfortunately, those who had charge of the work failed to check out a big rock that was all soft. The dredge was hauled out at high tide. When the tide fell it was found that the dredge had been placed directly upon a big rock. The result was that the weight of the machinery and hull broke the back of the dredge.

The result was that the dredge, which cost a quarter of a million dollars, lies on the shore of Hudson Bay, twisted out of shape and probably a total loss.

The Port Nelson was built at the Pease Iron Works, Toronto, and left the yards there only three months ago.

BEATEN POLITICIAN BURNED RESIDENCES

Young Putnam Lawyer Alleged to Have Taken Fiery Revenge.

WILLMANTON, Conn., Nov. 5.—(Can. Press.)—Starting evidence was given in the superior court today at the trial of Frank E. Howarth, a young Putnam lawyer, charged with arson by Mrs. Viola Bennett, a detective retained by the state, who swore that Howarth told her he burned a number of buildings in Putnam to get "revenge" for political defeats. Some of the houses burned were owned by political opponents of Howarth, Mrs. Bennett declared.

Howarth, who is only 24 years of age, is charged with causing 14 fires in Putnam during the past year or so. Mrs. Bennett said she visited his office under the pretext of doing business with him and that during the course of 10 interviews he told her he had set fire to some of the buildings. He declared that he was promised the position of representative to the general assembly, but the politician cheated him out of it. He did not want the position for the honor, Mrs. Bennett said, but he did want it so he could be retained as attorney for the New York, New Haven and Hartford Railroad.

Mrs. Bennett said she stands only a short time when court adjourned until tomorrow.

TRAMP STEAMER IS RAIDED FOR OPIUM. BOSTON, Nov. 5.—(Can. Press.)—Customs inspectors impressed a gang of stevedores as an attacking party in a raid for opium on the British tramp steamer Kendall Castle today.

The steamer's Chinese crew had retained the inspector's entrance, but surrendered when the stevedores joined in the attack. The officials seized a large quantity of the drug, charging that it was being smuggled into this port from Montreal. The steamer had just arrived from Louisbourg, C.B. No arrests were made.

Electric Show at Arena. The National Electric Show will be held at the Arena, Mutual street, for one week, Nov. 10 to 15.

MOB RULE STILL IN INDIANAPOLIS

Seven Strikebreakers Were Badly Hurt and Street Car Demolished.

MUST CALL MILITIA

Business Men Demand That State Take Measures at Once.

INDIANAPOLIS, Nov. 5.—(Can. Press.)—An effort to resume street car traffic, which has been tied up since last Friday night by a strike, resulted today in the serious injury of seven strikebreakers and two policemen and the entire demolition of the car. A crowd of several thousand persons, many of them armed with bricks, surrounded the car and prevented progress, while a down-pour of missiles from the roofs and windows of buildings along the route threatened the lives of the strikebreakers and police.

Indications were tonight that the militia would be called out tomorrow. A committee of the civic and commercial organizations presented a request to Governor Ralston today asking for troops and stating the organizations would share the responsibility for the action.

Feared Lawless Outbreak. While Governor Ralston would not state what action he would take, he intimated that his reason for not calling the troops at once was that they could not be mobilized before tomorrow morning, and that he feared that the announcement that the militia had been called for tomorrow would result in a night of lawlessness.

The request for troops came after the governor had spent the morning in conference with the brigadier-general of the state and the county and city authorities.

"There are a great many people here who are not workmen," said the governor, "and many of them evidently are desperate characters."

Strikebreakers Deserted. The six strikebreakers injured in today's rioting who were able to travel, returned to Chicago tonight at the expense of the labor union. John Sullivan, motorman of the car and the most seriously hurt, was knocked to the floor, the others surrendered and agreed to leave Indiana.

A number of strike sympathizers went back to the wrecked car later in the day to remove the car from the tracks and block further traffic on the line. They were dispersed when a riot called brought fifty policemen to the spot. Most of the cars which were deserted on the streets when the strike was called have been removed from the rails and will prevent any traffic on the downtown lines until repaired.

Another death due to the strike resulted when Thomas Carleton, who was shot in the Louisiana barn riots yesterday, died today.

Strikebreakers Overtures. A new proposition from the striking motemen and conductors in which the union, was submitted to Gov. Ralston by W. E. Beatty, president of the Central Labor Union, representing the men, tonight. The demand of the employees that the union be recognized by the Indiana Police and Traction Co., has been the main objection the company has made to the terms submitted by its men.

The men, however, still demand higher wages, shorter hours and arbitration of all future differences.

HAILEYBURY GETS A SHOP LICENSE

Ontario Government Will Avoid a Monopoly of Northern Trade.

The Town of Haileybury receives the first liquor shop license from the Ontario Government. The decision to allow this was explained by Hon. W. J. Hanna last evening as following a continued appeal from the civic authorities and the board of trade, and in accordance with the desire of the department to avoid a monopoly of the trade by the one shop now in existence.

For six years there has been an endeavor to supplement the service of the shop in New Liskeard, which has been serving the whole Timiskaming district. Each year, however, the move was vetoed by the department.

The committee renewed their appeal this year, and it was allowed. It is understood that the new license will be operated by the Timagami Hotel & Steamboat Co., and Edward Edmunds of Haileybury.

One of the later reasons forwarded for the granting of the license was that the new bar restrictions preventing the sale of bottles required an additional shop.

CANADIANS AT OXFORD WON FRESHMAN EVENTS

Rhodes Scholarship Representative Compliments Them on Athletic Victories.

Dr. George R. Parkin, at one time principal of Upper Canada College, now an author and organizer of the Rhodes Scholarship Trust, was in Toronto a few hours yesterday on his way to Chicago, where he will attend the meeting of the Association of American Universities. While here he paid a visit to the University of Toronto buildings and expressed satisfaction the number of additions made since his last visit.

He remarked on the fact that the Canadian scholars at Oxford had won all the athletic events in the freshman class. "It was a great thing to occur and very gratifying," he said.

DEGREE CONFERRED ON NOTED SURGEON

Sir Rickman Godlee Bore Off Highest Honor University Can Bestow.

TRIBUTE TO HOSPITAL

Toronto General More Complete in Arrangements Than Europe's Best.

For the fourth time in the history of the university the honorary degree of doctor of laws was conferred upon a representative of the profession of medicine and surgery when Sir Rickman Godlee was given this honor by President Falconer yesterday afternoon at Convocation Hall. Nor was the honor felt by the recipient alone. The president, who, in the absence of the chancellor, conferred the degree, said that the university felt highly honored by having on its honor roll the name of a man who has reached the highest rank among the surgeons of the age.

The solidified cascade is the production of calcareous deposits from sulphurous and ferruginous mineral springs, issuing from the depths of the earth at a temperature of 85 degrees centigrade.

ALGERIA OWNS A NATURAL WONDER

Pettrified Waterfall Which Has Engaged Attention of Scientists.

With all the beauty of a cataract of living water, there is in Algeria a remarkable petrified waterfall which recently has been engaging the attention of scientists. This is the London News, is the Hammam-Mekhul, which means the "Bath of the Damned," and is located 82 miles from Constantine, on the site of the ancient Roman city.

The name Hammam-Mekhul was given to the stone cataract in allusion to a legend that the waterfall was petrified by Allah, punishing the impety of unbelievers by turning all the members of a tribe into stone. At night, as the story runs, its stone dwellers of the remote past are freed from their strange fetters, come to life and resume their normal shapes.

Colds Cause Headache and Grip. LAXATIVE BROMO QUININE is the remedy. It has signature of W. GROVE on box. 25c.

MAYOR NATHAN RESIGNS

ROME, Nov. 5.—(Can. Press.)—Mayor Nathan and the aldermen of Rome after a heated discussion today decided to resign from office. This action was due to the death of a general election of the two candidates in Rome who has visited the municipal "bloc."

GIVE DR. SAUNDERS A CHANCE TO SHOW

Minister of Agriculture Advises Veterinary Students to Be Patient.

DEPUTATION DISMISSED

Second Petition Did Not Ask Reinstatement of Popular Instructor.

The drawing of new petitions by the disgruntled Ontario Veterinary College students brings the same answer from Hon. James Duff, the minister of agriculture. His advice to them is to throw in their lot with the college, and by co-operation with the staff endeavor to make their courses all that is required. He also assures them of the very best assistance of the faculty in their desire for a competent and scientific knowledge of science and anatomy.

Seven-petted men, bearing with them a legally scrutinized document, waited upon the minister last evening and aired their complaints. These resolved for the most part into a plea for better grading in the subjects bearing on surgical work. The reinstatement of Dr. Fowler, whose resignation appeared to have focused the trouble, was not asked. It was suggested, however, that his work gave rise to no complaints and that all the men under his teaching were satisfied.

Efficient and Keen. Mr. Duff claimed that Dr. Fowler's successor, Dr. Saunders, was an efficient man and doing the best of which he was capable. He had hardly had an opportunity as yet to show what he could do with the subjects in hand. It was only fair that he be granted more time and patience by the students under him.

In dismissing the deputation, he again advised all to work towards maintaining the high standard of the college by holding up the hands of the principal.

No Rebellion. One thing the petitioners wanted made clear was that they are continuing their studies earnestly and taking the regular lectures with no hint of rebellion.

The suggestion that reciprocity with the American Veterinary Association was not granted was shown to be in no way related to the attitude of Principal Grange. Protective measures being adopted by all the states of the union were responsible.

BARGE CORNWALL ABANDONED. QUESNBURG, N. Y., Nov. 5.—(Can. Press.)—Wreckers today abandoned the Montreal Transportation Co. barge Cornwall, which sank with its cargo of 40,000 bushels of No. 1 hard wheat in the St. Lawrence Canal while en route to Montreal. The grain expanded and the wreckers were unable to do anything with the vessel. All the movable equipment was taken from the deck. The barge broke loose from its tow.

Election Echoes

Complete returns in New York show that Mitchell led McCall for the majority by more than 121,000 votes. Charles Russell, Socialist candidate, polled 32,000 votes. McCall ran behind the rest of the Tammany ticket in all five boroughs.

Sulzer's majority in the contest to represent the state assembly in the sixth district of New York was 2000. Many of the legislators who voted to impeach Sulzer were defeated. The assembly will probably consist of 85 Republicans, 48 Democrats and 17 Progressives.

Brooklyn contributed over 58,000 and Manhattan over 20,000 to Mitchell's big plurality. Tammany elected only two of the sixteen members of the important board of estimates.

The thirteenth and twentieth districts of New York returned Democratic congressmen. Socialism met with a reverse in the defeat of Mayor Lumm of Schenectady, N. Y.

The most striking victory gained by the Progressives was in the election of Louis Will as mayor of Syracuse. Three of the four congressmen elected in Maryland are Democrats. The exception is C. D. Paige, Republican.

The plurality given Walsh in the Bay State gubernatorial race exceeds 50,000, the largest ever given a Democratic candidate for the office. Every Democratic candidate on the state ticket was elected with the possible exception of the attorney-general.

The Republican grip on the Massachusetts Legislature was weakened. That party, after a control of years, lacks a majority in each branch. The Progressives, who scored heavy gains, hold the balance of power. The senate stands: Republicans 20, Democrats 18, Progressives 2. The house stands: Republicans 117, Democrats 109, Progressives 17. Independents 2, Socialists 1.

Coolidge elected Thomas Morris as mayor of Dunth, ending the Socialist regime. Every ward voted "wet."
