## HAMILTON DID NOT **GET A REDUCTION**

Why Hydro Board Failed to Include the City in Favored

EAST-END INCLINE RY.

Judge Snider Has Made His Award in the Webb

Arbitration.

HAMILTON, Noov. 20. — Unlike other cities where the hydro-electric power is used, Hamilton did not get a reduction in the price of the power that was granted by the hydro commission of Ontario. The reason for this was that Hamilton has always charged the domestic and commercial lighting customers less than the rates charged by the commission in Toronto. Toronto charges four cents per kilowatt for the first hundred square feet of lighting space, three cents feet of lighting space. feet of lighting space, three cents for the second hundred, with ten per cent. off for cash. Hamilton's charges are the same, but twenty per cent. discount is allowed for cash.

It is expected that the provincial

nmission will ask the Hamilton mission to assume the maintenance and cost of all the commission's line from Dundurn street to the Beach pumping house and of other lines it has in the city.

If this is done the city will likely set a reduction of perhaps \$1 or \$1.50 in the present price of \$16.

To Wait on Dominion Commissioners. The entire board of control will wait on the Dominion Railway Board at to see if the boy cannot be kept out of school and placed in a home for incurview to forcing George F. Webb to but the east end incline in running order so that the hundreds of people who live on the mountain top will not

for the mountain top residents, produced a petition addressed to the railway commission that had been signed by every resident. This petition contained a full list of the particulars of the closing of the mcline and stated that the management had refused to a total of \$1000 in a couple of days. spend \$3000 on it for repairs. It was further shown that 1800 persons and 400 vehicles traveled on it before it was closed down and that now all of these are affected and have to walk up

or down the steps. In Favor of the City.

Last year the ratepayers of Hamilton voted \$130,000 for the purpose of buying property on the mountain face for worded \$130,000 for the purpose of buying property on the mountain face for park purposes, but the scheme being made public the prices of all the property were at once boosted. For a long time it appeared that the scheme would be dropped, but then it was decided not to pay the prices asked but to expropriate the land. This was done in the case of 25 acres on the mountain face owned by George F. Webb, for which he asked \$105,000. Mr. Webb took it to arbitration before Judge Snider, who yesterday afternoon rendered his decision, which was decidedly in favor of the city, it being ordered to pay \$36,563 for the land. It was at first feared that the \$130,000 voted by the people would not buy the required acrea of land.

According to a stetement made by Mayor Allan, thru one of the local after-Mayor Allan, thru one of the local afteration papers, nothing can be done to profit the young children attending seh rom the possibility of developing tuberculosis or consumption from a certain small lad, who has passed all hope of recovery, and who is still attending one of the public schools in Hamilton. The school nurse attending the public is in this school has been informed of the case and has taken several photographs of the boy in different poses, to show the horrible effects tuberculosis has on children, and ts tuberculosis has on children, and side of the Kellogg limits. The powder

Sailors' Relief Fund.
The board of control decided at its Mave to use the steps in going to and coming from work in the city.

At a meeting of the board of control yesterday morning. M. Malone, acting for the mountain top residents, produced a petition addressed to the railway commission that had been signed by every resident. This point is a solution to the fund for the relief of the widows, orphans and families dependent on the sailors lost in the storms on the great lakes. In addition to this, subscriptions are fast going into the city treasurer, who is looking after the fund started by the Dominion Mar-
