In 1910 the Goldfields Consolidated of Newada paid \$7,000,000 in dividends as an issued capital of \$35,591,480. This is believed to be the largest dividend were paid by a gold mining company in a single year, tho not 20 per cent. or the enormous capitalization. The economic value of most of the deposits depends on very local enrichments, as much of the gold is not of primary deposition. This may account for the fact that copper miring is there much more in vogue than mining for gold. The long-lived sold mines, such as the Homestake, the mother lode group in California, and the Treadwell in Alaska, have only low-grade ores. The younger andesites in which there is secondary enrichment, rarely if ever give permanent mines. Montreal Stock Market Passed Quiet Morning With Limited Interest Shown.

MONTREAL, Dec. 12.—Local stocks moved irregularly Saturday, closing the week with the dull firmness which characterized trading in the preceding five days. As on Friday, Scotia occupied the centre of attraction, nearly a 1000 of the 5000 shares traded in being in that issue. CHICAGO, Dec. 12.—Big export clearances Saturday helped to inspire confidence on the bull side of the wheat market. Largely as a result, prices closed firm, 1-2 to 11-4c net higher, with December at \$1.13 7-8 and May at \$1.15 1-5. Corn gained 3-4 to 7-8c, and cats 5-8 to 3-4c. In provisions the market wound up unchanged to 15c higher except December pork, which was nominally fifty cents down.

In this connection the fact was noted that the first shipments of new Australian wheat were reported today. 160,000 bushels, and that navigation on the Great Lukes and a tridmight. on the Great Lakes ends at midnight tonight. Butter remained about stationary in price, selling at 35c, 33c, 32c and 30c per pound.

Fowl also sold at about the same rates it has been going at for the past two weeks. Ducks sold at from 18c to 22c per lb.; geese at 14c to 16c, with an odd one bringing 17c, while turkeys brought from 20c to 25c per lb.

In the wagon section, the fresh vegetables were noticeably lighter in quantity, and were soon sold at about the same prices they have been bringing for some time past. There were only a few cauliflowers brought in, the very small heads selling at 5c each, larger ones bringing \$2 per bushel box.

Beef cut into quarters is being brought in in larger quantities, and proves a ready sale, the fronts going at 10c per lb. and the hinds at 11c and 12c per lb.
