

OVERLAPPING OF TIMBER CLAIMS.

What promises to be a lawsuit of some magnitude has developed from a dispute which arose regarding the ownership of a large tract of timber in Howe Sound, partly on Bowen Island, B. C.

Several years ago approximately 11,000,000 feet of timber were staked by Messrs. Ironsides, Rannie & Campbell, of Vancouver, who have been renewing the records annually since then, and last year Mr. George Magee staked an area of timber back of the other claim, and it is now alleged that in renewing their record Messrs. Ironsides, Rannie & Campbell have included the Magee claim.

Another similar case has occurred at Deer

Passage, where the Brunette Saw Mill Company five years ago staked timber valued at \$100,000. A couple of years ago it appears that Mr. Shannon staked and secured a record of the same property. He sold to McDougall & Cameron, who spent \$7000 in building a chute three-quarters of a mile long and building roads to open up the claim, when Mr. McDonald, representing the Brunette people, turned up and claimed it.

The Brandon Brick & Lumber Company, Limited, has been incorporated, with a capital stock of \$100,000.

LUMBER COMBINE INVESTIGATION.

The first sitting of the commission to take evidence in regard to the alleged lumber combine in Manitoba and the Territories was held at Winnipeg on August 17th. No evidence was submitted, as neither plaintiffs nor defendants were ready. The commission was adjourned for four weeks.

Advertising death is generally brought about through the existence of one or more of three distinct causes: 1, failure to maintain advertising long enough; 2, failure to take space enough to tell your story properly; 3, failure to give enough attention to such results as are brought to your notice through your advertisers.—Thomas Balmer, in an address before the Life Underwriters' Association of Chicago.
