

# NEW ELEMENTARY ARITHMETIC ON THE UNITARY METHOD.

By THOMAS KIRKLAND, M.A., Science Master Normal School,  
and WILLIAM SCOTT, B.A., Head Master Model School,  
Toronto.

*Intended as an Introductory Text-Book to Hamblin Smith's  
Arithmetic.*

Cloth Extra, 176 Pages.

Price 25 Cents.

W. D. DIMOCK, A.B., Head Master Provincial Model Schools,  
Nova Scotia.

The Elementary Arithmetic by Kirkland and Scott I can heartily recommend to our teachers. As a preparatory Arithmetic I have not seen its equal. The young pupil, by the arrangement of the principles presented and the exercises laid down, is led almost unconsciously to the great field of the unknown, by a step, that makes his earlier arithmetical studies a pleasure and a profit.

A. H. McKAY, Principal of Pictou Academy and Public Schools.

I have examined your Elementary Arithmetic on the unitary system by Kirkland and Scott, and have no hesitation in saying that I consider it the best *Elementary Arithmetic* which I have yet seen. It is admirably adapted to the requirements of grades 1st, 2nd and 3rd of our schools, as it offers, in addition to our present text-book, a copious and well selected assortment of exercises, a good arrangement and conciseness in definition and explanation.

W. E. SPRAGUE, Head Master, Model and Public Schools,  
Cobourg.

Since failures in Arithmetic are mainly due to a want of power in independent analysis—to a lack of knowledge of the unitary method and of skill in its application—this volume which discusses the problems on *independent methods* will be cordially welcomed by teachers. As a discipline of the mind in teaching the pupil to *think* and *reason*, Arithmetic is pre-eminent if taught by logical methods; and this work places it in the power of the younger classes to be benefitted by such methods. A very praiseworthy feature of the book is the large number of examples and problems peculiar to so small a work.

JAMES DUNCAN, Principal Essex Model and Windsor Central School.

After a thorough perusal of the Elementary Arithmetic by Kirkland & Scott, I have no hesitation in saying that it is better adapted to the schools of this country than any similar book that has come within the range of my twenty-seven years experience. The arrangement is natural and comprehensive. The questions are in clear, terse, attractive language.

W. R. RIDDELL, B.A., LL.B., &c., Math. Master Ottawa Normal School.

I consider it well adapted for the purpose for which it is intended.

JOHN DEARNESS, Public School Inspector, East Middlesex!

I have examined this book with increasing pleasure and can speak of it in almost unqualified recommendation. It is, in my opinion, the best elementary Arithmetic I have examined.
