Life-saving Crew of Twelve, With Lifeboat and Fast Launch, Will Soon Be Stationed at a Convenient Point on the Bay-May Prevent Renting of Canoes.

As soon as the crew of the life saving and patrol service can be sworn in and equipped with uniforms, the bathing paces around Toronto will be equipped with a suitable protective force, which should have some effect in lessening the number of drowning accidents in the neighborhood of the city. There will be a lifeboat, a fast launch and a crew of twelve men, the cost of maintenance to be met jointly by the harbor commission and the Dominion Government. As a sequel to the fatality at the

Mr. Lewis also said that Saturday's secident was not due to lack of proper life saving apparatus. "There was a full set at the south end of the Toronto Rowing Club, 35 feet from the scene of the accident, and there were three others along the lagoon to the south."

Commander Thompson, superintendent of the Dominion Life Saving Service, said yesterday that the conflict letween the cance and the motorboat paralleled that between the motor carowner and the pedestrian. You Can Thank Advertising

MEXT time you step into the corner store, take a look around. Of all the articles on the shelves, how many were on your shopping list five years ago? Make it ten. years, and you will find that most of the things you buy to-day-and could not do without-were not even made then.

You men and women who buy things, let this sink in. You are better men and women because of advertising. You eat more wholesome food. You wear better clothes. Your home is better furnished. You have cleaner and more sanitary houses. You read better books and magazines. You seek more healthful amusements

Your whole standard of living has been raised-and why? Beeause the men who make these better things are telling you that you will be more comfortable, happier and healthier if you use these higher grade goods.

It is advertising that makes it possible for you to buy "the best" right at your corner store. It is advertising that encourages the inventor to make new comforts and new utilities and enables you to buy them almost immediately after they are perfected.

J. J. Hill says this "high living" costs more. True for J. J .- but it is worth more. And leaving the cost aside, do you want to go back to buying jam cut of a pail, oatmeal out of a barrel, raisins out of sticky boxes, or tea exposed in an open chest?

Do you regret the money you paid for a Player Plane!

Would you forego the new style razor ?

Isn't a Tungsten worth a thousand candles?

Would you now be enjoying these if enterprising manufacturers had not told you about them in their advertisements?

Isn't life brighter because we have new and higher standards of living?

Let us thank advertising for it.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.
