

day exceed 5000. More than 100 guns, and numerous machine guns and bomb throwers, and much war material have been captured.

FRENCH

Sunday (Day). Paris, Sept. 29.—In the Champagne and north of the Aisne the armies of Gen. Gouraud and Gen. Mangin resumed the attack this morning. The Germans are resisting desperately in Champagne.

North of the Aisne the Germans are retiring on the Ailette. French troops have captured Plin, Chavignon, Ostel and Saint-Berthe. On the western end of the Chemin des Dames the French have reached the River Ailette at two points, says the statement from the war office today. In Champagne, after repulsing strong attacks, the French have taken the heights of Belleval, northeast of Gratreuil. The text of the statement reads:

"North of the Aisne the pursuit of the enemy continued during the night. The French occupied the Forest of Plin, and reached the Ailette in this region, and also east of Chavignon. On the sector between Ostel and Chavignon the enemy made strong resistance against the advance of our troops.

"On the Champagne front, violent attacks were made by the enemy yesterday, but they were broken up. The French troops resumed their progress, especially northeast of Gratreuil, where they captured the heights of Belleval."

Sunday (Night). Paris, Sept. 29.—In a new offensive between St. Quentin and La Fere, the French troops made some advance and took 500 prisoners. The troops continued to progress on all other sectors.

The statement says: "Overcoming vigorous resistance the French captured Urville and Cerisy, south of St. Quentin, and crossed the St. Quentin-La Fere road. Five hundred prisoners have been counted.

"Between the Ailette and Aisne the French advanced about two kilometres on both sides of the Chemin des Dames and occupied Fribillat and Kichévo. On the Champagne front, the French obtained important results, carrying Botoconville, Mount Ouyvet, and Rechault about six kilometres in the direction of Chalierange.

"Further west the French carried Ardrel, Montfaucelles and Vieux and reached the outskirts of Aves. On the left they entered St. Marie.

General Mangin has captured Fort Malmaison, one of the strongholds southwest of Laon, according to the war office announcement tonight. He now holds this position strongly. The text of tonight's communication follows:

"Our repeated attacks on the plateau north of the Aisne finally forced the enemy to retire towards the Ailette River.

"East of the line of Allentant and Jouy, pursuing the German rearwards, we occupied the village and southern outskirts of Fribillat, and the villages of Chavignon and Fort Malmaison also were captured.

"Further south we progressed considerably on the plateau north of Vailly.

"In the Champagne the day was marked by violent German counter-attacks on our right. Desperate fighting is proceeding in the Boucouville region on the heights south of Gratreuil."

In Macedonia. Northwest of Monastir allied troops advanced 11 miles up to Friday, and along the entire front had captured more than 100 guns, according to a French official statement on operations in Macedonia. Further important captures of prisoners have been made. The allies are also making progress

between Lake Presha and Lake Ochrida, and statements follow:

"The day of the 27th was marked by a general advance along the whole front and by the capture of a large number of prisoners and important material. On the left the allied troops broke up the resistance of the enemy forces between Lakes Presha and Ochrida, and pressed on. North-west of Monastir we have made an advance of more than 18 kilometres at certain points. We have progressed beyond Krushevo, and are marching on Kichevo.

"In the centre the Serbians, who succeed Veloz on Sept. 28, despite strong resistance by the enemy, are pushing forward on the front of Karabungra-Rudnik, 35 kilometres (22 miles) from Uskub. They have reached the region of Kochana and Ratzavista, and cavalry units have reached the region of Lohovo, about 10 kilometres (6 miles) from the Bulgarian frontier.

"On the right the allied forces occupied the region of Strumitza, and are advancing in the valley of the Strumitza toward the east.

"The number of guns captured is more than 500."

ITALIAN

Rome, Sept. 29.—Italian troops are pushing vigorously their progress over the mountains northwest of Monastir, says the war office statement today.

The Bulgarians are retiring rapidly in the direction of Kichevo. The statement reads:

"In Macedonia, according to the latest information, our troops are continuing their vigorous advance across massif of Mont Baba and have overcome obstinate enemy attempts at defence. In region west of Krushevo they have broken the resistance of strong rearwards. The Italians are striving the Krushevo-Cer road where it comes out south of 800 on the main road from Monastir to Kichevo.

"The Bulgarians are retreating rapidly before our columns, which are marching forward along the whole front. We have occupied the towns of Fribillat and Kichévo."

Krushevo, an important Bulgarian base, 23 miles north of Monastir, has been captured by Italian troops who also have driven the enemy from the mountain ranges between the Cerna and Yelka Rivers. The official statement from the Italian war office says that the Italians still are pursuing the Bulgarians on the Monastir-Kichevo road north of Demir-Hissar, an advance of 20 miles.

The text of the statement reads: "On Sept. 28, our troops in co-operation with our allies continued their advance from the previous line and occupied Ponte di Buchin and Verlyup Malo. The enemy put up stubborn resistance on the eastern slopes of the Dragishevo and Baba mountain ranges, but was attacked with great impetus and overwhelmed."

"Our columns, hard pressing his rearward, occupied Krushevo on the 27th, and on the 27th, in spite of the difficulty of the ground, they had passed all the mountainous massifs between the valleys of the Cerna and the Yelka. Having reached the Monastir-Kichevo road north of Demir-Hissar they are tirelessly continuing their march towards their objective."

Sunday (Night). "Our artillery executed violent concentrations of fire upon the Asiatic Plateau, and on the left bank of the Plave, opposite Montailo and the Monte Corteziano sector. In the region of Mori and Clima di Valbella attempted enemy assaults failed.

"In Albania, in the course of a daring reconnaissance in the Valley of the Janica and the region south of Berat, our patrols engaged in lively combats with enemy advance guards."

WAR SUMMARY

THE DAY'S EVENTS REVIEWED

In France and Belgium the allies are dealing the enemy such heavy blows and striking him in such bewildering rotation, that the whole German front is showing infallible signs of collapsing, and the German army has begun a retreat from the apex of the vast salient in the region of Chemin des Dames. The abandonment of the strong positions, forming his principal pillar of defence in France, means that the enemy has begun his retreat from France. The allies are achieving the victory by their flank blows, half of them delivered by the British and Belgian armies, and half by the French and Americans. The French in the Champagne have taken the Hindenburg line, and are within only a few miles of Vouziers, a vital point in the sole enemy communications with Germany thru Lorraine. The British have broken thru the Hindenburg line in two places in the regions of Cambrai and St. Quentin, their second army has joined battle from Arrmentieres to Ypres, and has achieved a big advance towards Lille, while the Belgians in an advance of two days have penetrated into the German defence six to eight miles, carrying the Houthulst Forest, Diermeck, Stadorburg and Paschedeale, and they are now close to cutting the Ostend railway and the German communications with Lille. In this operation the allies have begun the envelopment of the German attack.

On the right wing the chief fighting was on the right wing, which heavily engaged the enemy on a front of 30 miles from the Scarpe to St. Quentin. Nowhere could the German defence stand the strain and it gave way. This British advance in part assumed the form of thrusting spearheads into the Hindenburg line. The Canadians, who were one spearhead, have advanced five or six miles and have penetrated the defenses of Cambrai and are fighting in the outskirts. They and other British units first broke the Maroing-Cantaling line, then they carried other German support positions. The other spearhead, composed of English and American forces, also broke thru the Hindenburg defenses in a wide sector north of St. Quentin, carrying Bellefleur, Magny-la-Fosse, Nauroy, Bellecourt and other positions. It is probable that they have completely broken thru in this sector. On other parts of the front English, Scotch and

overcame them and took 54 prisoners. The statements follow:

AMERICAN Washington, Sept. 29.—In reporting further advances of the Americans northwest of Verdun, General Pershing's communique for yesterday, received here tonight, said American aviators have "grip command of the air." They have brought down 12 balloons and more than 40 enemy planes, while less than a third of that number of American planes are missing.

SERBIAN

London, Sept. 29.—Large fires are burning around the important base of Uskub, towards which the Serbians are advancing from Veloz, according to the Serbian official statement on Saturday. The Serbians have captured the important mountain range of Plachkovitza, south of Kochana. The text of the statement reads:

"Our troops had new successes on Sept. 27. They are pursuing the enemy and have taken the Plachkovitza range and are near Chavro (25 miles from the Bulgarian border) and St. Nicholas. The forces are now north of Veloz. There are big fires around Uskub.

"The Serbians captured 180 guns and counted numbers of trench mortars and machine guns."

GREEK

London, Sept. 29.—The advance of the entire allied forces in Macedonia, continues, says an official statement issued by the British war office. Greek troops are pushing to the eastward along the Belashtiza range.

British and Greek forces also are moving on Petrich, along the Strumitza Valley. Petrich is about 50 miles inside the Bulgarian zone, and is the seat of various calibre, have been captured.

"Greek cavalry is advancing beyond Veloz in pursuit of the enemy who is in rout. The prisoners number several tens of thousands.

"The Greeks, co-operating with the British, are advancing on Petrich. Other Greek units are marching toward the east, following the Belashtiza mountain range."

AMERICAN WINGS MAKE PROGRESS

Germans Offer Increasing Resistance to Operations Near Verdun.

With the American Army Northwest of Verdun, Sept. 29.—The enemy greatly increased his resistance all along the American line today, adding to his opposition to the unfavorable weather, which impeded the advance by making liaison difficult and transportation precarious. The opposition was heaviest on the right flank, yet the American extreme left made good progress despite the stiffest kind of fighting against the enemy.

The units on the right, likewise, had to contend with heavy machine gun and artillery fire from east of the Meuse.

Reports indicate that the enemy is bringing up reserves, which will be in a position to operate in the Meuse-Moselle sector, and to concentrate heavy artillery in the woods west of Romagne. Prisoners say that heavy machine guns are being placed along the Kerthul defense line and other sectors in this neighborhood.

The Germans are believed to be now using their reserves on the basis of recent reports, but notwithstanding this, the American attack continued all day.

At the outset of the attack the line ran from the village of Bretteville and Breuille to Clergy, to which the enemy had not been entirely expelled; hence to one kilometre south of Exarmentieres on the basis of reports, but notwithstanding this, the American attack continued all day.

SWAMPY UNDER HEAVY FIRE

New British Division Took the Village of Bellefleur.

A GREAT VICTORY Dramatic Incident When Americans Opened Ranks to Let Anzac Thru.

At British Army Headquarters, Sept. 29.—This morning's attack by the British and Anzac forces on the village of Bellefleur, was a dramatic incident, says a statement from the British war office today. The British division crossed the swampy area in magnificent style, many men swimming under heavy machine gunfire, and entered the village of Bellefleur.

FRENCH TANKS CLEAR TUNNEL OF GERMANS

Enemy's Desperate Defence Fails to Hold Some-Py Before French Attack.

French Headquarters in Champagne, Sept. 29.—A desperate struggle was made by the Germans to retain possession of Some-Py, a strategic point on the Kerthul defense line and other sectors in this neighborhood.

The Germans are believed to be now using their reserves on the basis of recent reports, but notwithstanding this, the American attack continued all day.

At the outset of the attack the line ran from the village of Bretteville and Breuille to Clergy, to which the enemy had not been entirely expelled; hence to one kilometre south of Exarmentieres on the basis of reports, but notwithstanding this, the American attack continued all day.
