The naval terms, while jointly agreed to by the experts, have not yet been approved by the war council. It is understood the agreement concerning the dismantling of the fortifications Heligoland and of the Kiel Canal will have some reservations from American quarters, so as not to estal ish a precedent for the non-fortification of canals and waterways wholly within American mational boundaries, such as Hell Gate, the Cape Cod canal and the system of canals running parallel with the Atlantic coast line. The Panama canal has not come up during the discussions, but suitable reservations will be made so that no precedent is established that will be applicable to this waterway. The dismantling of Helgoland reservations will, it is be lieved, have in view the establishment of precedent against the fortification of islands lying along the American coast, which are regarded

Herr Erzberger told of his efforts to secure modifications, but Marshal Foch had been sternly insistent on the acceptance of the terms. He touched only briefly but clearly on his successful protests against Polish incorporation of Silveto against Polish incorporation of Silesia and his unsuccessful efforts to save Birnbaum, Bentschen and other German towns. He emphasized that the allies would take over the responsibility of keeping the Poles in check and give guarantees for the safety of the Germans on the Polish side,

To Herr Erzberger's protests, Marshal Foch replied that all were pure-ly military measures and in acordance with President Wilson's 14 points. Herr Erzberger protested likewise against the indeterminate extension of the arm stice, but Marshal Foch brusequely declined to make any alteration, and insisted upon the inclusion of a clause which gives him power to promulgate any order to Germany at will.
