"Our rulers will best promote the improvement of the nation by strictly confining themselves to their own legitimate duties, by leaving capital to find its most lucrative course, commodities their fair price, industry and intelligence their natural reward, idleness and folly their natural punishment, by maintaining peace, by defending property, by diminishing the price of law, and by observing strict economy in every department of the state. VENIZELIST OFFICERS ARE BEING RETIRED

Athens, Jan. 7.—Eighteen generals and more than 200 colonels were appointed to the Greek army today to replace adherents of former Premier Venizelos. In view of the movements in Thrace and Constantinople, doubts were entertained of the lovalty of the Venizelist officers, and it was decided to retire them on pay, their places being filled with men whose loyalty to King Constantine was beyond doubt. Demetrios Gounaris, the war minister, left Athèns last night to inspect the forces in Thrace.

Bell Counsel Contends That Measured Service Means Saving.

OTTAWA, Jan. 7.—(By Canadian Press.)—Evidence seeking to show that the Bell Telephone Company was profiting to a great extent by its relations with the Northern Electric Company under which the latter acted as purchasing agent for the Bell company, and also to show that in Halifax, where measured service has been made effective there was a substantial saving to the telephone user, was adduced by counsel for the Bell company at today's sessions of the Dominion Railway Commission.

The hearing adjourned at 4:30 this evening until 10 o'clock on Monday morning, when further witnesses for the Bell company will be called.

A host of telephone experts and legal luminaries are taking part in the case, and it is not expected at present that there will be any sign of a conclusion before about Thursday of next week.

E. V. Cox, supply contract auditor of the American Telephone and Telegraph Company, who was on the stand this afternoon, testified that the contract between the Bell Telephone Company and the Northern Electric Company was very advantageous to the former.

As to the probable trend of telephone prices, Mr. Cox thought there would be no great decline in the near future. Raw commodity prices were returning to normal, but the special items required in telephone construction were not decreasing. Raw material cost was only 30 per cent of telephone equipment prices.

The witness saw no possibility of labor costs falling as far as telephone work was concerned. Highly technical men were required in telephone equipment manufacture and the witness was confident there would be no decrease. The highly skilled labor needed was hard to secure.

Mr. Cox read a letter from a firm of telephone equipment manufacturers at the lowered in the next four or five years. Labor costs were not coming down, though labor was showing a tendency to become more settled and more efficient.

Witness thought the Bell company Sees No Drop.

AMBIGUITY CAUSES

[Special to The Advertiser.]
OTTAWA, Jan. 7.—Owing to a striking ambiguity in the freight and passenger rates judgment delivered by Hon.
F. B. Carvell, chairman of the railway commission; in September last, there has arisen considerable misunderstanding as to the nature of the desarrance. examination of a probation system by which a person convicted of an offence other than treason, homicide, raped arson or kidnapping, may be granted probation if the ends of justice and the best interests of the public and the convicted person would be served thereby. Imposition or execution of sentence could be suspended and the convicted person placed in charge of a probation officer. A system of this kind is in vogue in the District of Columbia, United States, and this will form the basis of the bill to be introduced by Hon. Mr. Raney.

Commission; in September last, there has arisen considerable misunderstanding as to the nature of the decrease which became effective with the new year. The judgment reads as follows:

"Until the 31st day of December, 1920, I would give a general increase of 40 per cent in western freight rates, and 35 per cent in seeping and parlor car rates, and 20 per cent on excess baggage. Commencing the first day of January, 1921, and until there is another revision of rates. I would reduce these percentages on freight to 35 per cent in western territory, and to 30 per cent in western territory, and to 30 per cent in western territory, and to 30 per cent in western territory, with 10 per cent reduction in passenger fares, up to the first of July next, when passenger rates should come back to the basis in effect prior to the coming into force of this judgment, but continuing the full increases in parlor and sleeping car rates and excess baggage."

With regard to the nature of the decrease which became effective with the new year. The judgment reads as follows:

"Until ties 31st day of December, 1920, I would give a general increase of 40 per cent in western freight rates, with 20 per cent in western freight rates, and 20 per cent in seeping and parlor car rates, and 20 per cent on excess baggage. Commencing the passenger fares, up to the first of July next, when passenger rates should come back to the basis in effect prior to the commission. age."
With regard to the freight rates the

With regard to the freight rates the judgment is clear. The increases are simply reduced. The words: "With 10 per cent reduction in passenger fares," however, are flot so clear. Supposing, for instance, the rate prior to the increase and been 100. A 20 per cent increase on that would bring it to 120, and a "10 per cent reduction" on that fare would be 12. That, however, is not the intention of the judgment. What Mr. Carvell declares he intended to say was that the increase in passenger rates should be cut in half, and should now be a 10 per cent, instead of 20 per cent. Instead of a reduction of 12, it is a reduction of 10, on the 100.
