Hasn't Authorized and Doesn't Approve What's Been Done - Still a Deadlock on Sixth Ballot

Another day's bailotting in the election of a bishop for the Diocese of Toronto has brought the conclusion of the matter appreciably nearer. A telegram received from Bishop Thornioe during the day stating that he had just emerged from the woods and seen the newspapers concluded with the words: "Have neither authorized nor approved what is being done." While some amb!guity may be allowed for, this was interpreted by most of those some ambiguity may be allowed for, this was interpreted by most of those present as a withdrawal, taking the "unauthorized" to refer to his candidature, and the "nor approved" to the campaign on his behalf. In the succeeding ballot the clerical vote for Bishop Thornloe dropped by 13, and it was generally admitted that Bishop. Thornloe was voted for by the other because they could unite on no one
