Interior Committee of Board of Education Recommends Substantial Raise.

HAMILTON, Friday, July 7.—The 218th, American Legion, and the 216th, Bantam Battalion, both received grants at yesterday's meeting of the board o control, the former getting \$200 and the latter \$250. With regard to the paying of police court fines to the province, City Clerk Kent read a letter from Crown Attorney Washington, which stated that it had been the custom to retain the fines for the city's own use, but now that the reques had been made, the fines should be paid over to the provincial authorities. City Solicitor Waddell is looking into matter

The body of Mrs. Perkins, who has been employed by Mr. and Mrs. Cor-nick as housekeeper at their Beach residence, was found dead in one of the residence, was found dead in one of the rooms yesterday morning, death being due to heart failure. She was about 40 years of age and is not known to have any relatives in this country. Nine out-of-town motorists appear ed in the local police court yesterday, charged with speeding, and their fines enriched the court to the extent o

The death occurred last night Bertha Augusta Wild, wife of Edward J. Wild, of this city. She was 33 years of age, and is survived by her husband and four small children. The meeting of the city council last right came to an abrupt ending after one-quarter of the business had been transacted, when the city clerk discovered that there was not a quorum

Considerable discussion on salary in creases occupied the time of the in-ternal management of the board of education last night, and the follow foreases were recommended:
Teachers' maximum salary, \$2000, which is an increase of \$200; minimum salary, \$1000, being an increase of \$200. R. A. Thompson, principal of the collegiate institute, was granted a raise of \$500; inspectors also received a substantial increase. All the increases will take effect Jan. 1, 1917.

FRENCH PERFECT **FIGHTING FRONT**

Established Solid Homogene ous Line Without Dangerous Fissures.

PARIS, July 6, 6.30 p.m.,-The French offensive along the Somme has made steady progress so that the left of the advance now rests on 'Hardecourt and the right on Estrees, while the entire intervening front has been transformed within the last four days from one of irregular lines that exposed some positions to a flanking fire into a homogeneous line without fissures or dangerous wedges. The solidity of this front marked contrast with the fronts in the battles of the Champagne and the Artois, the irregularity of which permitted of a heavy crossfire being brought to bear upon the more advanced points. That part of the present front facing Peronne has the classic form of two echelons on two

sides of Peronne, which is said to be the only one of the well-known dispositions laid down in ancient tactics that has survived the revolutionizing developments of the present war. The right of this formation is proected by a defensive curve that unites e new front with the old line. Tacticians declare that the man cures that accomplished this formation constituted one of the most notable strategic phases of the war.

Dominions Must Be Heard Regarding Continued Conduct of the War.

Canadian Associated Press Cable. LONDON, July 6.—Tremendous ap-plause greated the remarks of Hon. Sir James Carroll of New Zealand when he announced to a distinguished gathering of statesmen and others at the Mansion House tonight that while the overseas parliamentary delegates were not here to find fault with Downing street, they were all determined upon one thing, and that was that some definite program should be decided on before they returned home regarding certain aspects of the relations now existing between the home and the

overseas governments, A number of matters, he would have to remain until after the war, but there also were matters affecting the immediate future policy of the government, arrangements for continued conduct of the war and the proposals for peace, which were of supreme importance to the dominions and in which they were entitled to be heard. Tane worm is bred from a parasite. This parasite is a creature male and feenough to fill a quart of solid worm, and when put in a bucket of water would apparently fill it. It is the hardest task in the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the worm, and remains there to breed another. It is an internal demon and causes its victime to suffer all the symptoms of disease the world to destroy this parasite without doing injury to the individual who may be so unfortunate as to have it, as the parasite clings to the bowels, freeing itself from the body of the worm, and remains there to breed another. It is an internal demon and causes its victim to suffer all the symptoms of disease imaginable. It is surprising the number of people that have them. Thousands have them and are not aware of the fact. The letters and testimonials the Professor has in his possession are enough to convince us of this alarming fact. Some of the most prominent symptoms are: ravenous appetite, dizzy spills, headaches, cramps in the bowels, a feeling of someravenous appetite, dizzy spils, headaches, cramps in the bowels, a feeling of something moving in the bowels, also a feeling as though something was crawling up the throat. Another case comes to my memory of a baby about two years old. The mother brought her to me in her arms. She was wasted away to a living skeleton, and was a pitiable looking sight. The case was beyond all reasonable hope of recovery. I thought, well, your faith is great if you ever expected this child to get well. She purchased a bottle of the about three months after when this lady brought the little one with her to my office. She was after another bottle of Mother's Friend for her own children and another for one of her neighbors she had recommended it to. I did not recognize either the lady or the child until she told mo of the circumstances. She said: "Do you not remember me bringing a baby in my arms, all skin and bones? This is her; isn't she a fine, healthy child she is. Just look at the rosy cheeks."

To Whom it May Concern:

This is to certify that we have used the prof. Mulveney's World-Famous Tapeworm Cure with most gratifying results. My baby, two years old, took convulsions, and we discovered she had a tapeworm. BABY BROOKS of Toronto.

Mrs. B. Brooks.

Prof. Mulveney, Dear Sir:
. When I was in Toronto a few months ago I got a bottle of your remedy called Mother's Friend Worm Medicine, and it has been a treasure, and I am now out of it and want to get more. The first time I gave it to her there came from her like a nest; it was just full of worms four or five inches long, and also small worms most like maggots, and some pinworms and ever since when I give her medicine she passes several worms and a great many pinworms. This morning there were three like fish-worms; she was also restless, throwing herself and kicking and getting scared and talking. I got up and gave her the Mother's Friend Worm Medicine, and this morning her stool was full of pinworms and those three large worms like fish-worms, I have one more dose yet to give, and I must have more, I enclose an order for \$1.25, as I don't just know what it will cost to send it here, so if it is any more than 25c to send it let me know. Thanking you very much for your valuable medicine. My little girl is four years old, Hoping to receive this medicine by return mail, I remain, yours respectfully. This letter can be seen at Prof. Mulveney's office, 167 Dundas street.
