Union and Non-Union Men at Work on Tunisian—Men Say They Expect Matter to Be Adjusted—Four Steamers Arrive

Up to the present time, trouble which was anticipated in connection with the unloading of the Allan steamers at West St. John has not materialized, and the feeling today was that nothing would be done by the Longshoremen's Union until the matter had been placed before the minister of labor on his arrival in the city.

There are two Allan steamers now in port, the Tunisian and Pomeranian, both of which arrived last evening, but so far only one has been worked, the Tunisian. The Pomeranian landed her passengers on the West Side, but will discharge her freight at the Intercolonial pier, on this side of the harbor, to which she will move this afternoon.

The cause of dissatisfaction among the laborers was the action of the union in employing some non-union men. One of the officers in the local union said that everything would be done to avoid friction and in the event of dissatisfaction arising between the union and the steamship companies, the matter would be submitted to a board of arbitration.

The longshoremen who were at work on the Tunisian this morning were composed of both union and non-union men. When the men knocked off for the dinner hour, it was said that the union men were taken off before the non-union men were taken on. The union laborers would refuse to go to work and that the members at work also join them as well as the checkers and other allied unions.

When the time to resume work came, however, the men returned, as it was understood that the matter would be arbitrated.

The Tunisian is the only boat in port on which non-union men are employed. The local manager of the Allan line said this afternoon that no representations had been made to him on behalf of the union and that he had not heard of any prospects of a strike.

R. M. S. Tunisian, of the Allan Line, arrived in port about 10:30 last evening after a fair voyage and docked at No. 6 berth about 2:30 o'clock this morning. The Tunisian is under the command of Captain G. Hamilton and sailed from Liverpool on November 26. She brought 1,000 tons of goods, 1,000 tons of coal, 1,000 tons of flour, 1,000 tons of sugar, 1,000 tons of rice, 1,000 tons of wheat, 1,000 tons of barley, 1,000 tons of oats, 1,000 tons of corn,
