Charlie Hays and His Strike-breakers Have Boosted THE CAUSE OF SOCIALISM IN CANADARESE

The Grand Trunk strike of conductors and trainmen is ended. The basis others. of the settlement is that the company will put back the striking men There as soon as possible, other than those who have been guilty of acts of violence or disorderly conduct. The company will put into effect from May 1st 1910 the rates dated July 18th, 1910, it being understood that those shall, in no instance effect a reduction in any existing rate. The company will, on Jan. 1, 1912, make effective in train and yard service on the G. T. R. the rates of pay and rules contained in the schedule or Italians are not wanted and The Canagreement on that date in effect on adian workers walk the streets until the lines of the Canadian Pacific

Then there was much dam-age done to trains and rolling stock through unskilled handling. Then there is the flash light that has been thrown on the company and its greed, that has put it in bad odor with the people. Charlie Hays will yet get a good wigging from the parasites for whom he is engaged to dig surplus value out of the Grand Trunk employees.

A cotton merger capitalized at twenty million dollars is the latest in the United States. Cotton has been one of the staples in the manufacture and sale of which competition has run riot. The result is that eotton mills are duplicated. There is a feverish rush for manufacturing cotton at one time, and mills shut down by the score at another time.

It is estimated that the strike cost the men directly in pay the sum of \$163,750. It cost the railroad directly \$1,182,585. The company figures that the demand of the men men seventy cents. The ordinary will get the seamen fifty cents. This pay is seamen fifty cents. This pay is seamen fifty cents. This pay is it. This class war on in Canada.

There is a class war on in Canada. It is a hard, harsh saying, but we must face the fact like men. It will not vanish simply because we turn our backs to it and wont recognize it. This class war arises from the ures that the demand of the men would have cost them \$1,620,759 seamen fifty cents. The ordinary seamen than it will have to pay under the settlement and the officials deployed on works of destruction. The the settlement and the officials declare that the railway is better off by half a million than if the strike had not taken place through the yielding of the company. This is erroneous. There has been a disorganization of the roneous there has been a disorganization of the rone of t yielding of the company. This is erroneous. There has been a disorganization of business which will cost much business. The G. T. runs through business. The G. Consequently Socialism appears to the profit class in the light of robbery and confiscation. The members of this class see that their present incomes will vanish and the members of this class see that their present incomes will vanish and they fear to be flung into the ranks of the wage workers. They cannot see that with the abolition of their present incomes will also go wage slavery which produces those incomes and that, when Socialism abolishes their incomes, it will offer them a chance THEIR PLACE.

It turns out that the Illinois Central Railway Company has been done out of a million dollars and a half down by the score at another time. The cotton speculator has endeavored to get rich quick in the fluctuations of the market. Now this is, all to be altered. Co-operation and capitalist combination is to replace the hap hazard methods heretofore existing. This is as it should be. Competition This is as it should be. Competition is wasteful. But the benefits under capitalism will go to the capitalists. It will only be the application of Socialist principles that the benefits will inure to the toilers.

There is much dissatisfaction among the men over the settlement of the strike. They looked to the union, their economic organization, to protect them. And many of them find themselves left in the lurch. The company workers.

There have been much talk about for and Trunk pensions. The Grand Trunk officials have been slobbering of the scrikes about the generosity of the company to the men. There have been old age pensions.
