## INTO CHANNEL

LATHAM IS RESCUED FROM DAMAGED MACHINE

With Mishap-Amateur Aeronaut Injured.

Calais, France, July 13.—Perched upplane was but slightly damaged.

Latham was attempting to cross the martial has been demanded. He had travelled eight miles when the 23 are dying from sunstroke as the remotor suddenly slowed down and sult of being compelled to participate plane was 350 feet above the water mometer stood at 135 degrees in the when it began to glide swiftly down- sun. The men dropped out of the ranks

cases, was able to enjoy a smoke while boats were putting off from shore to tow him in. He will resume his trials as soon as the monoplane is repaired.

To-day's flight was made in the face of adverse conditions. Latham was angry at the taunts of his friends and the press, which accused him of lacking the nerve to make previous flights he had scheduled. Latham is trying and the ranks while the troops were on the field, and a number of others were on the field, and a number of others were on the field, and a number of others were on the field, and a number of others were on the field, and a number of the most part of the soldiers died, and there is sliftle hope for the recovery of any of the others.

Hundreds of men in the Cosaka regiment suffered sunstroke during a two days' forced march, ordered by the commanding officers to test the endurhe had scheduled. Latham is trying for the prize of £5,000 offered by the London Mail. He declared to-day, after he had been rescued, that he would arrange to repeat the attempt within a week and that he would not give up until he had captured the prize. He explained that the fellows of the motor of this regiment died, nine are in a critical condition, and have but slight chance of recovery; sixty are in a serious condition, and the rest are suffering intensely.

At Hamamatsu similar conditions are symbolic to the troops in hot weather. Two members of this regiment died, nine are in a critical condition, and the rest are suffering intensely.

## MONOPLANE FALLS EIGHT SOLDIERS DIE FROM HEAT

OVER SCORE OF OTHERS REPORTED TO BE DYING

The Curtiss Aeroplane Meets Japanese Officers Compel Men to Drill in Sweltering

Tokio, July 19.-Eight soldiers, and on the framework of his wrecked dead, 32 are dying and 115 are in a nonoplane, Hubert Latham was calm- serious condition to-day as the result ly smoking a cigarette when boats of a terrible heat wave which has came to his rescue after he had swept over Japan during the past few plunged into the waters of the English days. Public sentiment is aroused over channel eight miles from the shore to- the action of the military authorities day. Latham was uninjured by the in compelling the men to drill in the accident to his machine, and the mono- sweltering heat, the theory being that it "would condition" them, and a court

channel when the accident occurred. At Takasaki six soldiers are dead and causesd the machine to fall. The mono- in battalion inspection when the therward into the waves.

Latham clambered on to the frame work of the machine, and with the aid of waterproof cigarette and match of the waterproof cigarette and waterproof cigarette cigarette cigarette cigarette cigarette cigarette cigarette ci

until he had captured the prize. He explained that the failure of the motor power was impossible to avoid at the present stafe of aeronautics.

Latham's monoplane started at the rate of about 50 miles an hour. The wind was high, and it was feared from the start that he would be unable to make the flight. At times he rose to a begut of 550 feet, and apparently had his machine under perfect centrol until the power failed. As soon as the monoplane began to descend the torpedo boat Harpoon and the tug Calasian started in pursuit and rescued the aviator and his wrecked machine.
