Parents of children who attend the city schools are to be asked to express an opinion on the desirability of extending the noon recess hour from an hour to an hour and a half.

The motion was seconded by Trustee Biddell.

In Eastern cities the extra half hour is granted at noon, and the school act here provides for the extension, but the half-hour given at noon must be made up during the day, and would be added to the afternoon time.

Trustee McNeill said that when the motion was made, he had endeavored to influence parents in the voting. He thought the teachers should take no such steps at the poll now proposed.

The school board also decided that Mrs. Gordon Grant's request that she circulate literature in the schools on the subject of women's suffrage should not be granted, and that her offer of a prize for the best essay on the subject be referred to a committee consisting of Trustee Mrs. Jenkins and the superintendent.

This committee last night submitted the following report: "Your committee appointed to report on Mrs. Grant's request that she be allowed to disseminate in the schools literature urging the claims of the supporters of woman's franchise, and to offer a prize for the best essay on that subject, beg to report: "As the parents of the children of our public schools are divided on the subject of this contention, it is suggested that to allow the dissemination of the said literature would tend to irritate those whose views are opposed to it, and would be a precedent for people having a definite opinion on a controversial nature which they might wish to inculcate."

And as the granting of permission to place in the children's hands the literature in question, the nature of the endorsement by the board of its contents, we are, therefore, of the opinion that that part of her request should be refused. There can be no objection to the offering of the prize for the best essay on woman's suffrage, provided that such prize is awarded to the pupil whose essay is best from a literary point of view, and that the nature of the question from which he writes it."

Trustees Christie and McNeill spoke on the question, the former saying he thought there were sufficient subjects on the school curriculum at present, and Trustee McNeill, while expressing himself as a supporter of the suffrage for women, held it would not be wise to introduce the matter in the schools as suggested by Mrs. Grant. The chairman pointed out that essays written by school children should be judged by an appointee of the board and suggested the amendment of the committee's report to that extent.

LABORER CAUGHT IN QUICKSANDS

Has Narrow Escape While at Work in Sewer Trench at Prince Rupert.

Prince Rupert, Nov. 11.—To jump into a sewer ditch and find himself seized in a death grip by a quicksand laborer a few days ago. He yelled for help, a rope was thrown him, half a dozen men gave a pull, and the man was gradually drawn to the surface.

He was one of a gang that was digging sewer trenches in Bowser street. He went to work at the usual hour in the morning and descended into the trench. He did not pay much attention at first to the fact that his feet were deep in the mud. When he kept getting deeper and deeper, however, mild alarm changed to consternation. He struggled and it seemed that his limbs were in a vice-like clasp. Strain and tug as he would, he kept sinking instead of rising. Then he became frantic. He required the best efforts of half a dozen men to drag him out of danger.
