

## Begin Today.

Is there nothing which Christ, as your Friend, your Lord, your Saviour, wants you to do that you are leaving undone today? Do you doubt for one instant, with his high and deep love for your soul, that he wants you to pray? Do you doubt for one instant if his will that you should honor and help and bless all men about you who are his brethren? Are you doing anything like that? Do you doubt one instant that his will is that you should make life serious and lofty? Do you one instant doubt that he wants you to be pure in deed and word and thought? And are you pure? Do you doubt one instant that his command is for you openly to own him and declare that you are his servants before all the world? And have you done it? These are the questions which make the whole matter clear. No, not in quiet lanes, nor in the bright temple courts, as once he spake, and not from blazing heavens as men sometimes seem to expect—not so does Christ speak to us. And yet he speaks here in my heart.—Philips Brooks.

GROWING GIRLSSHOULD BE BRIGHT, CHEERFUL,  
ACTIVE AND STRONG.A Great Responsibility Rests Upon  
Mothers at This Period as it Involves  
Their Daughter's Future Happiness or  
Misery—Some Useful Hints.

Rosy cheeks, bright eyes, an elastic step, and a good appetite, are the birth-right of every girl. These are the conditions that bespeak perfect health. But unfortunately this is not the condition of thousands of growing girls. On every side may be seen girls with pale or sallow complexion, languid, stoop shouldered, and listless. Doctors will tell them that they are anemic, or in other words that their blood is poor, thin and watery. If further questioned they will tell them that this condition leads to decline, consumption and the grave. What is needed is a medicine that will make new, rich, red blood, strengthen the nerves and thus restore the vigor, brightness and hopefulness of youth. For this purpose no other discovery in the annals of medicine can equal Dr. Williams' Pink Pills for Pale People, and thousands of once hopeless girls have been made bright, active and strong through their use. Among those who have been brought back almost from the grave by the use of this medicine is Miss M. C. Marceau of St. Lambert de Levis, Que. Miss Marceau says: "It gives me the greatest pleasure to speak of the benefit I have experienced from the use of Dr. Williams' Pink Pills. For some years I resided in Wisconsin with a relative, where I devoted my time studying English and music, intending to make the teaching of the latter my profession. I was never very strong and my studies fatigued me much. When about fourteen I became very pale, suffered from severe headaches, and weakness. I consulted a doctor, and acting on his advice, returned to Canada. The fatigue of the journey, however, made me worse, and finally I got so weak that I could not walk without help. I was extremely pale, my eye-lids were swollen, I had continuous headaches, and was so nervous that the least noise would set my heart beating violently. I almost loathed food and my weight was reduced to ninety-five pounds. Neither doctor's medicine nor anything else that I had taken up to that time seemed of the slightest benefit. I was confined to bed for nearly a year and I thought that nothing but death could end my sufferings. Happily an acquaintance of my father's one day brought me a box of Dr. Williams' Pink Pills, and urged me to try them. I did so, and I thought they helped me some, and my father got more. After I had used a few boxes all my friends could see they were helping me, and by the time I had taken nine boxes I was enjoying better health than I had ever had in my life before, and had gained fifteen pounds in weight. I tell you this out of gratitude so that other young girls who may be weak and sickly may know the way to regain their health."

Girls who are just entering womanhood are at the most critical period of their lives. Upon the care they receive depends their future happiness. Neglect may mean either an early grave or a life of misery. If mothers would insist that their growing daughters use Dr. Williams' Pink Pills occasionally, rich blood, strong nerves, and good health would follow. If your dealer does not keep these pills in stock they will be sent postpaid at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine, Co., Brockville, Ont.
