

LIFE HELD NO FURTHER HOPE FOR GEN. NOGI

Determined to Die at Time of National Calamity HIS WILL IS MADE PUBLIC

Jap General Leaves Body to Medical College and Wants Only His Teeth, Hair and Nails Placed in Grave.

Tokio, Sept. 16.—The will of General Count Maresuke Nogai, who with his wife, the Countess Nogi, with the idea and purpose of demonstrating their devotion to their departed sovereign, Mutsuhito, committed suicide at the moment the body of the late emperor was started on its journey to the tomb, was published today.

The Japanese warrior says that he follows the emperor because his service are no longer required in this world. He had often sought to die, he adds, and chose as the occasion for his departure from this life, the present great national calamity under which the country is laboring.

Nogi's Will.

A document left by General Nogai on the date of the night of Sept. 12, twenty-four hours previous to the taking of his life in a manner that startled the world, and it indicates that the death of the emperor had not been decided upon when the instrument was prepared.

General Nogai distributes his property among his wife and friends, and makes donations to a number of public institutions. He says that while his wife lives, the house of Nogi may be maintained, but after her death the line will be extinguished.

The Port Arthur hero suggests that his body be given to medical college, requesting only that his teeth and nails be buried in the grave.

Togo Mourns.

Admiral Togo visited the death chamber in which the body of the late Count Nogi reposes and remained for a long time kneeling. He was deeply affected. Prince Katsura, lord chamberlain, representing the emperor also paid homage to the dead general. The city of Tokio has presented Secretary Knox with a gloriose flower vase and other gifts.

PROPOSED PEACE SETTLEMENT BETWEEN ITALY AND TURKEY

TO ASSIST LIVE STOCK IN THE WEST

Hon. Robert Rogers Appoints Commission Which, It is Hoped, Will Help to Revive Live Stock Industry.

Special to The Standard.

Ottawa, Sept. 16.—A commission of importance to the live stock and ranching industry of Western Canada has been appointed by Hon. Robert Rogers. The commission, it is understood, will consist of E. E. Taylor, chief ranch inspector at Calgary; George H. Pope, Winnipeg, and Clarence F. Graham, of Winnipeg. It also will investigate the whole question of the grazing leases in the West and will establish what lands can be set aside as suitable only for grazing purposes. More permanency will be given to the leases.

The Minister by the appointment of this commission hopes to be able to assist in reviving the declining stock industry of the West. One of the main reasons which has been assigned for the disappearance in recent years of western cattle from the market, the unsatisfactory condition of the grazing leases. Ranchers crowded out by homesteaders and settlers, and could not afford to make heavy investments. As a result they have been gradually selling out.

RUSSIAN PLANS A NEW TREATY WITH THE U.S.

Movement Now Under Way to Arrange Basis of Trade and Commerce With the United States.

Washington, Sept. 16.—State Department officials are noticing with satisfaction the launching of a movement in Russia, under government auspices, to arrange for a new treaty of trade and commerce between Russia and the United States. Although only three and a half months intervene before the expiration by denunciation of the existing pact, there has been absolutely no progress during the past three months in the negotiation for a new treaty.

When, soon after the United States had given notice that it would abrogate the treaty of 1832, the State Department signified to Russia through Ambassador Guld its readiness to discuss the present treaty. The Russian government let it be known that as America had seen fit to denounce the present treaty, it was incumbent upon the United States to submit some definite proposition to form the basis of a new one. As the department was prepared to submit such a proposition at the moment, the negotiations were allowed to lapse, with the passage of a little time the feeling of resentment roused in Russia by the denunciation of the treaty might abate, and that the great commercial interests which are threatened with destruction by severance of the relations on the ordinary basis, would bring to bear influences strong enough to promise success if negotiations are renewed this fall.

ITALY GETS TRIPOLI IF PROPOSAL GOES THROUGH

ONE TURKISH PORT IN MEDITERRANEAN

Sultan will Have Spiritual Suzerainty in Tripolitania and Monetary Grants to Arab Chiefs will be Paid by Italians

Paris, Sept. 16.—The terms of the proposed peace settlement between Italy and Turkey, include the cession to Italy of Tripoli as a port of the Mediterranean. The Italian occupation of Tripoli is an accomplished fact, Turkey being permitted to retain a certain amount of the national debt, and this is a recognition of the spiritual suzerainty of the Sultan in Tripolitania, and the payment of monetary grants to the Arab chiefs by Italy, which also will pay to Turkey annually a certain amount of the national debt, the payment being guaranteed by revenues derived from Libya, and for the cession to Italy of some portion of Italian territory in the Red Sea as compensation for the loss of Tripoli.

The Italian delegates at the conference objected to the suggested retention of a part of Massowah, in the Italian colony of Eritrea, and this may be eliminated. The question of the status of the Aegean Islands has not yet been raised, as Italy is aware that the powers would not agree to their retention by Italy.

BRYAN PLAYS OLD OPPONENT

"The Peerless One" Scores Roosevelt and Declares Governor Wilson is the Only Man for Presidency.

Denver, Colo., Sept. 16.—One term for president and the necessity of selecting Governor Woodrow Wilson for the office in November was the chief thought of campaign addresses delivered today by William J. Bryan in his tour of northern Colorado. At Fort Collins he emphasized this point and scored Colonel Roosevelt for asking a third term.

"Roosevelt is an eleven-hour convert to progress principles," said Mr. Bryan, "and should not be trusted until he has proved his sincerity."

He said Col. Roosevelt never had fought the people's battles, but had opposed the progressive, both Republican and Democrat, in congress. He charged that the Roosevelt campaign is being financed by the trusts.

DISORDER IN BELFAST SHIPYARD

More Sectarian Strife as Result of Which Several Men Were Roughly Handled—Military Called Out.

Belfast, Sept. 16.—Queens Isle shipyard was the scene of another outbreak of sectarianism this morning. Several artisans were badly manled, one of them so severely that he was carried out of the yard unconscious. Excitement at both of the big shipyards which are the largest employers of labor in Belfast, has risen to fever pitch. Many men refused to go to work today at Harland and Wolfe's plant and only a very few Catholics are working at the other yard as the manager last week advised against their return to work on account of the feeling shown by the Protestants against them.

The military which had been confined to barracks since Saturday's disturbance when 60 persons were severely injured in a fight waged on the Celtic Park football grounds, was ordered out today to keep the peace.

HEALTH OFFICERS FROM ATLANTIC TO PACIFIC IN CONVENTION

URGE RETURN TO THE FARM

Displacement of Rural Population During Past 10 Years Matter of Concern—Fight Against the White Plague.

Toronto, Sept. 16.—Physicians and medical health officers from the Atlantic to the Pacific are in attendance at the Canadian Public Health Association Convention which opened at the Physic Building of the Toronto University this morning. Dr. Charles H. Hodgkins, the federal health officer, Ottawa, is the presiding officer and Dr. Peter H. Bryce, Supt. of Immigration, was one of the chief speakers at this morning's session. The association was formed last year in Montreal.

Dr. Bryce, delivering the first address before the second annual congress of the Canadian Public Health Association today, asked these questions: "How shall Canada save her people from physical and mental degeneracy due to industrialism as seen in the great cities of older civilization?"

"How long can a country, essentially a producer of raw material, by virtue of geographical location and extent of territory still lagging unopened, continue to develop normally and prosper, when it has shown a displacement of rural population during the last ten years to an extent never witnessed before in the history of any people, and an increase of urban population rapid beyond the palmist days of United States immigration?"

Answering these queries, Dr. Bryce said the existing conditions demanded a lessened cost of agricultural production, careful preparation and conservation of farm products and the cheapening of transportation between consumer and producer. More varied and extensive farming would provide constant and profitable employment for farm laborers.

Dr. Bryce condemned the big packers for eliminating competition in buying by dividing up the territory amongst themselves, by freeing out the small drovers and butchers, and by getting control of civic or rural cattle markets.
