

HUNS GETTING TERRIBLE HAMMERING IN FRANCE

TEUTON ARMIES IN FRANCE ARE GRABBLING YIELDING

Generals Haig and Nivelle Continuing Relentless Pressure Against Invaders — Russian Situation Appears None Too Favorable.

The German armies in France are slowly yielding ground before the relentless pressure exercised by Generals Haig and Nivelle and the vital question is as to whether their morale can be maintained under the terrific pounding to which they are subjected day and night. Apparently the Allied commanders have abandoned the policy of sudden thrusts at chosen points and are relying on a constant hammering over a wide front in the belief that sooner or later the iron hammer ring must either break or crack.

Russian Crisis Awaits.

While there is little immediate prospect of sensational developments in the battle area, the political situation remains fraught with many possibilities. The latest news from Russia indicates that the crisis in that country continues acute and the menace that Russia may withdraw from the Entente or be plunged into chaos still throws its shadows over the future. The Russian radicals are apparently determined as ever to reject the

The Misses Gerald and Nola Melick delighted the audience in several musical numbers. During the course of the evening, Mrs. J. E. Secord, in company with a party of the Girls' Club, visited the rooms and joined in the evening of enjoyment.

NEUTRALS TO GET NO MORE FOOD STUFFS

Canadian Government Stops Exports of Wheat and Flour to All but Allies.

Special to The Standard. Ottawa, May 22.—One of the reasons for the high cost of wheat and flour is that large quantities have been going to neutral countries, particularly to Holland. This has diminished the supply to such an extent as to provide an excuse for increasing the price in this country. The government in considering the food situation has come to the decision to prohibit in the meantime the exportation of wheat and wheat flour to other than British and allied countries. It is felt that this action will have an immediate effect upon the prices prevailing in this country with regard to these commodities.

Doctors and Eye Specialists Agree That Bon-Opto Strengthens Eyesight 50% In a Week's Time In Many Instances

Eye Prescription You Can Have Filled and Use at Home.
Boston, Mass.—Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that Doctors and Eye Specialists now agree that Bon-Opto is the best remedy for them. Many whose eyes were failing and many who wore glasses say they have thrown them away. One says: "After using Bon-Opto I can now see my glasses, and my eyes do not hurt. At first they would hurt dreadfully. Now they feel fine all the time. I can read a minute to me. A lady who used it says: 'The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read my papers without my glasses.' Another who used it says: 'I had my eyes strained by overworked, tired eyes strain induced nerve headaches. I have worn glasses for weeks and without them I could not read my papers. After using Bon-Opto for several days my eyes have cleared up and I can read my papers without my glasses. I cannot express my joy at what it has done for me.'"
It is believed that thousands who wear glasses and who are tired of them, will be able to strengthen their eyes and be free of their troubles and expense of ever getting glasses.
Dr. Beck, an operator of nearly twenty years practice, says: "A patient came to me who was suffering from the Biphthalmic Strabismus with all the concomitant symptoms, as morning agglutination of the lids, chronic conjunctivitis and epiphora. Her eyes when not congested had the dull appearance common to such cases. Having run out of her medicine she had suggested Bon-Opto. She used this treatment and not only overcame her strabismus but also her epiphora and morning agglutination. She was able to dispense with her distance glasses and her headaches and epiphora disappeared. Her eyesight was improved. I have since verified the efficacy of this remedy in a number of cases and find it to be a remarkable remedy. I can say it works more quickly than any other remedy I have prescribed for the eyes."
Dr. Smith, an oculist of wide experience, says: "I have treated in private practice a number of serious ophthalmic diseases with Bon-Opto and am able to report ultimate recovery in both acute and chronic cases. Mr. B. came to my office suffering from an infected eye. The condition was so serious that I feared for the eye. After using Bon-Opto for a few days the infection seemed to have disappeared. I prescribed Bon-Opto in 24 hours the infection had disappeared. Inflammatory symptoms had been removed. The eye was cured and retained its normal vision. Another case of extreme conjunctivitis, strabismus (crossed eyes) and external muscles yielded to the soothing and astringent effects of Bon-Opto. Always instill Bon-Opto after removal of any foreign bodies and apply it locally to all burns, ulcers of the lids or of the eyeball itself. It is a tonic for the eye, and setting the eye in redness more acute, hence the number of cases of discarded glasses."
Dr. Conner says: "My eyes were in bad condition owing to the severe strain arising from protracted microscopic research work. Bon-Opto used according to directions rendered a surprising service. I found my eyes remarkably strengthened, so much so that I have put aside my glasses without discomfort. Several of my colleagues have also used it and we are agreed as to its results. In a few days, under my observation, the eyes of an astigmat, who were so improved that glasses may be discarded by the patient. Eye troubles of many descriptions may be successfully treated with the use of Bon-Opto and if you want to strengthen your eyes, go to any drug store and get a bottle of Bon-Opto in solution. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly from the start, and inflammation and redness will quickly disappear. If your eyes further you use a little it is your duty to take too late. Use them now before it is too late. If your eyes are in such a state that you are unable to do your work, your eyes have saved their sight if they had cared for their eyes in time."
Note: A city physician to whom the above case was submitted, writes: "Bon-Opto is a remarkable eye remedy. Its constituents are of the highest quality. I have used it very successfully in my own practice on patients whose eyes were strained through overuse of the eyes. I can highly recommend it in case of weak, weary, aching, burning, burning eyes, red lids, blurred vision, dizziness, or any other eye trouble. It is a patent medicine or secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturer guarantees it in many instances, or refund the money if it does not succeed. It is sold in all good drug stores. In this city, including Vaughan's Drug store and all other wide awake drug counters."
