

LEGISLATURE OF NEW BRUNSWICK

HOUSE OF ASSEMBLY

After dinner progress reported on the Manufacturers Exemption Bill.

Mr. McKay introduced a bill to alter the time of holding annual school meetings under Common Schools Act, 1871.

Mr. Keenan moved resolution for a rule providing that printed or partly printed bills may be introduced and passed in all stages through the House.

Mr. Phillips committed a bill for the protection of certain birds and other animals. Mr. Woods in the chair.

The mover explained that the bill is to prevent the killing of certain fur bearing animals, and also of water and other birds and fowl between first of March and tenth of September, and of deer between first of February and first of September.

Mr. Butler thought the present law for the protection of moose should be extended to deer and caribou which would go quite far enough when coupled with Dominion laws.

Mr. McKay said the bill should not protect wild cats and marten which should be killed at sight wherever caught.

Progress was reported with leave to sit again.

Hon. Mr. Crawford committed a bill to incorporate the Maritime Mutual Fire Insurance Company. Mr. Ryan in the chair.

The Attorney General presented the petition of the Diocesan Synod of New Brunswick in favor of a bill to incorporate the Lord Bishop of Fredericton.

The Attorney General introduced a bill relating to lands held by the Trustees of the Wesleyan congregation, also a bill respecting the Methodist Church of Canada; also a bill relating to the Trustees of Mount Allison Wesleyan Academy, and petition of L. A. Wilton and others in favor of the same.

The Legislative Council bill to enable Lake George Amusement Company to hold Stockholders' and Directors' meetings elsewhere than in Fredericton, was committed. Mr. Phillips in the chair. Agreed to.

Mr. Burns introduced a bill to provide for the purchase of lands and the erection of an Alma Mater and Workhouse in Gloucester.

Mr. Burns, according to notice, moved for papers and correspondence relating to the dismissal of Thomas F. Gillespie from the Magistracy and Constabulary of Alma House, Northumberland.

The Secretary said papers would be brought down without resolution whether or not passed.

Mr. Blanchard introduced a bill to legislate proceedings in Parish meetings in (Carleton Place) 1875.

Hon. Mr. Stevenson, tabled Crown Lands Department report.

Mr. Barker committed a bill to authorize municipality of York to acquire lands in St. Mary held in trust by them for school purposes; Mr. McKay in the chair. Agreed to after satisfactory explanation by mover.

FREDERICTON, March 9.

After routine Hon. Mr. McQueen committed the Bellevue, Albertville and Oil Company Bill, Humphrey in the chair.

The bill is almost a transcript of the Bay of Fundy Bed Granite Company Act, and the mover argued that this should be a company will be formed for the purpose of boring for albertite and oil at Bellevue Village. He dwelt on the benefits which would flow from the establishment of the company, saying that the company would entail a large additional expenditure on wharves and landings. The petition of James Williams to be relieved from income tax in Portland, as he was also taxed in the City, was referred. The payment of bills amounting to \$227.63 was ordered. The attention of the Board was called to the fact that petitions against the Permanent Street Improvement Bill were being received. The Council then adjourned, this being the last regular session prior to the elections.

Hon. Mr. Willis and Mr. Davidson argued against the principle of exemptions from taxes for the same reasons as those advanced by them against Crawford's Manufacturers Exemption Bill.

Hon. Mr. McQueen said he felt with the gentlemen interested in the passage of the bill that the proposed Company would be the means of enriching the District and County in which it was established, and this claim for exemption was, therefore, a valid one. However, the House desired, he would consent to the striking out of the exempting section.

Mr. Davidson thought progress should be reported in order that the measure might be closely scanned and its provisions more thoroughly understood. This was opposed vigorously by McQueen, seconded by Smith, when the exempting section was reached. McQueen said he would not be in a hurry to give up his position, and was opposed by Dow, Swin, Smith, Picard and others, all of whom, however, were in favor of the bill. The section was struck out and the bill agreed to.

Hon. Mr. Crawford presented the petition of Edward Crawford and others in favor of a bill relating to Church lands at Sussex.

Mr. Forley introduced a bill to incorporate the Lakeville Corner-Milling Co.; Mr. Rogers, a bill to incorporate the Green Hill Cemetery Co.

Mr. Cattell committed a bill to incorporate Moore's Mills Union Church and Cemetery Co. Agreed to.

LEGISLATIVE COUNCIL

FREDERICTON, March 8.

A bill relating to the Stipendiary Magistrate and lockup in Madawaska was further considered. As passed in Committee the bill is to stipulate for establishing a lock up in Edmundston as a jail.

The bill further relating to Justice in civil suits was recommitted. The bill proposed that no justice should be deemed incompetent to try any suit on account of consanguinity or affinity of parties in suit, except he was within the third degree.

Hon. Mr. Haslington thought such a question should be left to the decision of the Supreme Court.

Hon. Mr. Chandler asked the difficulties that might arise in determining what was the third degree. The canon, civil and common laws were not agreed to the lines constituting the degrees of affinity and consanguinity. It would not be desirable to pass the bill. Subsequent speakers mainly agreed with him. After desultory discussion, in course of which the subject of the provision and ever growing burden of costs in suits were dwelt upon, a motion for postponement for three months was carried.

Mr. Boyd in Mr. Beal's chair.

The Institute was enthusiastically filled last night to hear the ever-popular Boyd.

The readers of the Telegram have called about Beal, and the others were curious to know who he was. Mr. Boyd, who was sharp on time, was received with applause, and began by reading a letter from A. W. Lawrence, Esq., reciting instances of lay and clerical ignorance of Beal, and urging the establishment of an annual letter Collegiate, episcopal, progress, and dissent, who thought Beal was appointed by God for the decoration of the tabernacle, and was given a knowledge of all manner of cunning work in metals, woods, and fabrics, and his worthy successors are the skillful workers in every department of life. Like Beal, all are called by God for some special work, and all should be content to fill their appointed station.

The lecturer, instead of a host of Beal, whose works have been left behind them as monuments of their genius and toil, showing a marvellous depth of research into the history of mechanical and scientific progress, and dissent, who thought lessons from their lives for the benefit of the present generation. He mentioned, among others, Prof. C. Fred. Hart, son of the late Principal of the Girls' High School of this city, who, by his scientific and intelligent study of geology made him the companion of the great Agassiz, and gained him a Professorship in Cornell University. He is now in Brazil, where he has been entered into the ranks of the army, and is prosecuting the researches that have made him one of the contributors to the scientific literature. Mr. Boyd's ideas on the dignity, duties, rights, obligations and requirements of labor were illustrated in his own inimitable, unrepeatable, poetical, amusing and original manner—local allusions, quotations from a host of authors, personal reminiscences, vignettes, and historical incidents, aphorisms, eloquent declamation, simple narrative, quaint similes, sentiments, wit, and broadly humorous anecdotes, being woven into the web and woof of the discourse with a prodigious profusion that would bankrupt any other man before half of the time. Beal, who was well known to all but a few close students of Scripture, has been given a new lease of life.

A few drops of Dr. Foster's Improved Emulsion with a wet tooth brush forms a rich, creamy foam in the mouth, imparting a delightful fragrance to the breath, and thoroughly cleansing the teeth from all impurities. Call at the Drug Stores and get a sample bottle free.

Portland Town Council.

The Council held a short session last night and received the reports of the Fire and Police Committees. The auditor's report was also received and laid on the table. The committee on ferries and landings reported against purchasing the same, and on the ground that such purchase would entail a large additional expenditure on wharves and landings. The petition of James Williams to be relieved from income tax in Portland, as he was also taxed in the City, was referred. The payment of bills amounting to \$227.63 was ordered. The attention of the Board was called to the fact that petitions against the Permanent Street Improvement Bill were being received. The Council then adjourned, this being the last regular session prior to the elections.

Hon. Mr. Willis and Mr. Davidson argued against the principle of exemptions from taxes for the same reasons as those advanced by them against Crawford's Manufacturers Exemption Bill.

Hon. Mr. McQueen said he felt with the gentlemen interested in the passage of the bill that the proposed Company would be the means of enriching the District and County in which it was established, and this claim for exemption was, therefore, a valid one. However, the House desired, he would consent to the striking out of the exempting section.

Mr. Davidson thought progress should be reported in order that the measure might be closely scanned and its provisions more thoroughly understood. This was opposed vigorously by McQueen, seconded by Smith, when the exempting section was reached. McQueen said he would not be in a hurry to give up his position, and was opposed by Dow, Swin, Smith, Picard and others, all of whom, however, were in favor of the bill. The section was struck out and the bill agreed to.

Hon. Mr. Crawford presented the petition of Edward Crawford and others in favor of a bill relating to Church lands at Sussex.

Mr. Forley introduced a bill to incorporate the Lakeville Corner-Milling Co.; Mr. Rogers, a bill to incorporate the Green Hill Cemetery Co.

Mr. Cattell committed a bill to incorporate Moore's Mills Union Church and Cemetery Co. Agreed to.

LEGISLATIVE COUNCIL

FREDERICTON, March 8.

A bill relating to the Stipendiary Magistrate and lockup in Madawaska was further considered. As passed in Committee the bill is to stipulate for establishing a lock up in Edmundston as a jail.

The bill further relating to Justice in civil suits was recommitted. The bill proposed that no justice should be deemed incompetent to try any suit on account of consanguinity or affinity of parties in suit, except he was within the third degree.

Hon. Mr. Haslington thought such a question should be left to the decision of the Supreme Court.

Hon. Mr. Chandler asked the difficulties that might arise in determining what was the third degree. The canon, civil and common laws were not agreed to the lines constituting the degrees of affinity and consanguinity. It would not be desirable to pass the bill. Subsequent speakers mainly agreed with him. After desultory discussion, in course of which the subject of the provision and ever growing burden of costs in suits were dwelt upon, a motion for postponement for three months was carried.

After a long discussion, progress was reported.

Hon. Mr. Hibbard said the attention of the Lower House ought to be called to the illegibility of the handwriting of the engrossing clerk.

(Special Telegram to the Tribune.) Our School Question—MacKenzie Bowell and Lepine.

After recess last night the New Brunswick school debate was resumed. It was very tame and uninteresting, none of the "big guns" on either side volunteering to speak on the question.

An opinion prevails that the Government are desirous of shirking the matter, which is quite evident from the course pursued to-night.

Mr. Devlin and other Catholic members spoke strongly in support of the Costigan resolutions, threatening that if they were not carried the whole Catholic population of the different Provinces would unite in agitating the question and bringing it up session after session.

Dymond moved the adjournment of the debate, after which the House adjourned till Wednesday, being the next opening day.

The debate will probably be resumed immediately after Private Bills. It will, however, be defeated, but by a small majority. French members will support resolutions to a man.

The Manitoba troubles are not ended yet. Bowell has given notice of motion for copies of all the minutes in Council, relating to the commutation of Lepine's sentence.

(Special to the Daily Tribune.) An Explanation of the Half of Uncle Charles.

OTAWA, March 9.

A mistake occurred in transmitting my despatch of the 3rd inst., stating that neither of the Burpee said anything on the subject of the Bay Verte Canal. It should have read that neither Smith or Burpee said a word. Charles Burpee did make a good speech in favor of the Bay Verte Canal.

City Police Court.

Yesterday afternoon Sergt. Byder apprehended Daniel Garvin and Charles Paddock, two boys suspected of complicity in the Globe office robbery. Garvin acknowledged his guilt in stealing an accomplice, and confirmed Paddock's assertion of innocence of being accessory before the fact. Garvin is 19 and Paddock is 17. They were both new boys, having just arrived in the city. They presented a pitiful sight, as they were placed in the dock this morning, and the miniature size of Garvin rendered the term "burglar" ridiculous in its application to him. The mother and grandmother of Garvin were in Court. Mr. Garvin stated that he could not look after his boy all the time, that he had forgotten him, and both are ignorant of the lad's whereabouts, and was not seen by him until found in custody. The Magistrate severely censured the father for such negligence, and told him that most men would show more anxiety at losing a favorite dog than he had shown at the four days' absence of his boy. The father pleaded that his work would not allow him to hunt the boy up when he disappeared. The Magistrate then said that the boy was too small to be tried as a criminal, and told the father to take him home and keep him there—to be a string to his father's neck, or chain him in his yard as he would do dog. With this the mother and grandmother, who were animal to Barreau, the Magistrate dismissed the case.

Point Lepine, March 9, 9 a. m.—Wind E. N. E., moderate, with light clouds.

Dear at Auction.

Some people find a good many things dear at auction, but the best thing in this line was the sale this morning, by Messrs. Hall & Haslington, of two fine looking, full grown deer. The sale attracted a large crowd of persons and the animals were purchased by Mr. W. M. Sears, \$22.50 being given for the pair.

The two deer were not thought too dear at this price, and it is supposed they will be sent to Halifax to grace Dr. Walker's park.
